The New International Encyclopaedia ,1923 **The New International Encyclopædia** Frank Moore Colby,Talcott Williams,1917 **New International Encyclopedia** ,1916 **The Written World** Jeffrey N. Peters,2018-05-15 In The

Written World Space Literature and the Chorological Imagination in Early Modern France Jeffrey N Peters argues that geographic space may be understood as a foundational originating principle of literary creation By way of an innovative

reading of chora a concept developed by Plato in the *Timaeus* and often construed by philosophical tradition as space Peters shows that canonical literary works of the French seventeenth century are guided by what he calls a chorological approach to artistic invention The chorological imagination describes the poetic as a cosmological event that gives location to or more accurately in Plato's terms receives the world as an object of thought In analyses of well known authors such as Corneille Molière Racine and Madame de Lafayette Peters demonstrates that the apparent absence of physical space in seventeenth century literary depiction indicates a subtle engagement with rather than a rejection of evolving principles of cosmological understanding Space is not absent in these works so much as transformed in keeping with contemporaneous developments in early modern natural philosophy The *Written World* will appeal to philosophers of literature and literary theorists as well as scholars of early modern Europe and historians of science and geography **The Book Buyer**, 1894 **The Original**

Version of "Love's Labour's Lost," David Starr Jordan, Douglas Houghton Campbell, Fernando Sanford, Gordon Floyd Ferris, Henry David Gray, Henry Waldgrave Stuart, 1918 *Love Canal* Richard S. Newman, 2016-04-12 In the summer of 1978 residents of Love Canal a suburban development in Niagara Falls NY began protesting against the leaking toxic waste dump in their midst a sixteen acre site containing 100 000 barrels of chemical waste that anchored their neighborhood Initially seeking evacuation area activists soon found that they were engaged in a far larger battle over the meaning of America's industrial past and its environmental future The Love Canal protest movement inaugurated the era of grassroots environmentalism spawning new anti toxics laws and new models of ecological protest Historian Richard S Newman examines the Love Canal crisis through the area's broader landscape detailing the way this ever contentious region has been used altered and understood from the colonial era to the present day Newman journeys into colonial land use battles between Native Americans and European settlers 19th century utopian city planning the rise of the American chemical industry in the 20th century the transformation of environmental activism in the 1970s and the memory of environmental disasters in our own time In an era of hydrofracking and renewed concern about nuclear waste disposal Love Canal remains relevant It is only by starting at the very beginning of the site's environmental history that we can understand the road to a hazardous waste crisis in the 1970s and to the global environmental justice movement it sparked **Love Lives** Carol Dyhouse, 2021-02-11 The story of how women's lives loves and dreams have been re shaped since 1950 the year of Walt Disney's *Cinderella* and a time when teenage girls dreamed of marriage Mr Right and happy endings *Cinderella* stories captured the imagination of girls in the 1950s when dreams of meeting the right man could seem like a happy ending a solution to life's problems But over the next fifty years women's lives were transformed not by the magic wand of a fairy godmother nor by marrying princes but by education work birth control and feminism However while widening opportunities for women were seen as progress feminists were regularly caricatured as man haters cast in the role of ugly sisters witches or wicked fairies in the fairy tale This book is about the reshaping of women's lives loves and dreams since 1950 the year in

which Walt Disney's film Cinderella gave expression to popular ideas of romance and at a time when marriage was a major determinant of female life chances and teenage girls dreamed of Mr Right and happy endings It ends with the runaway success of Disney's Frozen in 2013 a film with relevance to very different times Along the way it illuminates how women's expectations and emotional landscapes have shifted asking bold questions about how women's lives have been transformed since 1950 How have women's changing life experiences been mirrored in new expectations about marriage intimacy and family life How have new forms of independence through education and work and greater control over childbearing altered women's life ambitions And were feminists right to believe that sexual equality would improve relationships between men and women

The Literary World, 1898 [A Metaphysics of Love](#) George Pattison, 2021 As the third part of a philosophy of Christian life A Metaphysics of Love builds on a view of Christian life as shaped by the dynamic of call response and promise It argues that love is the ultimate content of this dynamic and considers how far this claim extends Taking its bearings from Dante's vision of divine love as the power that moves the sun and other stars this study explores the requirement that love is both human and cosmic uniting being and beings Cognizant of much recent philosophy's desire to overcome or move beyond a metaphysics of being it examines some of the formal structures that make love possible including language time social being forgiveness and ultimacy Following on from the earlier volumes extensive use is made of the idea of the poetic as the eminent mode of Christian witness contextualized within the prose of everyday life Heidegger provides fundamental philosophical orientation whilst key features of love are brought to the fore through dialogue with Kierkegaard Dante and Dostoevsky are frequent points of reference in addition to a range of literary and religious sources including the Scottish poet Edwin Muir Leading scholar George Pattison concludes that the phenomenon of love requires us to articulate a metaphysics that involves both being and nothingness thereby taking a critical position vis vis both classical theism and existential atheism
