Vehicles David Lipset, Richard Handler, 2014-08-01. Metaphor as an act of human fancy combines ideas in improbable ways to sharpen meanings of life and experience. Theoretically this arises from an association between a sign, for example a cattle car and its referent the Holocaust. These sign vehicles serve as modes of semiotic transportation through conceptual space. Likewise on the ground vehicles can be rich metaphors for the moral imagination. Following on this insight, *Vehicles* presents a collection of ethnographic essays on the metaphoric significance of vehicles in different cultures. Analyses include canoes in Papua New Guinea, pedestrians and airplanes in North America, lowriders among Mexican Americans and cars in contemporary China, Japan and Eastern Europe as well as among African Americans in the South. Vehicles not only carry people around but also carry how they are understood in relation to the dynamics of culture, politics and history. **The New Jersey Register** ,1994
