Global Futures in East Asia Ann Anagnost, Andrea Arai, Hai

Ren, 2013-01-09 The East Asian economic miracle of the twentieth century is now a fond memory What does it mean to be living in post miracle times For the youth of China Taiwan Japan and South Korea the opportunities and challenges of the neoliberal age deeply shaped by global forces in labor markets powerfully frame their life prospects in ways that are barely recognizable to their parents *Global Futures in East Asia* gathers together ethnographic explorations of what its contributors call projects of life making Here we see youth striving to understand themselves their place in society and their career opportunities in the nation region and world While some express optimism it is clear that many others dread their prospects in the competitive global system in which the failure to thrive is isolating humiliating and possibly even fatal Deeply engaged with some of the most significant theoretical debates in the social sciences in recent years and rich with rare cross national comparisons this collection will be of great interest to all scholars and students interested in the formation of subjects and subjectivities under globalization and neoliberalism

Leadership, Gender, and Organization Mollie Painter, Patricia H.

Werhane, 2023-08-16 In this collection the editors again bring together papers that either exemplify the crossing of disciplinary boundaries or that allow us to do so in and through the conversations they create The chapters were chosen based on their relevance to similar themes as were discussed in the first volume By reviewing historical developments in the literature around gender and organization and by drawing on recent scholarship that disrupts the traditional masculine imaginaries that plague leadership constructs this book challenges us to radically revise our gendered thinking about leading in organizations The authors included in this volume offer alternative interdisciplinary perspectives on the gender constructs that inform the organizing that takes place in business and society The book delves deeply into how relationality as concept and practice can help us frame a more inclusive approach to gender within contemporary organizations

The Core of

Leadership Jim Trunick, 2013-08-21 Leadership is a choice You can choose to stay positive and in the moment or you can let yourself be full of doubt and negativity It takes as much energy to be frustrated as it does to be resourceful and it's hard to be both at the same time We tend to think of leadership as flashing swords generals on horseback and Winston Churchill For all the achievement billed as leadership I believe real leadership goes deeper I've learned that true leadership is to win from the middle Power lies in the middle of the organization at its core in its heart We hear about strengthening the core as a physical fitness or martial arts term We strengthen our physical core through nutrition and exercise to be better at delivering or taking a punch And life is a punch we all know it To strengthen our core is to first discover the core of ourselves To get to

the core of leadership we need to peel down through the layers of our lives At the core of an apple are the seeds At the core of our bodies is the heart The seed is the essence of the apple and the heart is the essence of our humanity and in both lie the promise of new growth Our core captures and radiates our life and to be better requires strength The center of who we are Humble and sacrificed is the more true measure of teaching ourselves and others to win from the middle **Airport**
