Allen W. Trelease, 2004 THIS TITLE IS OUT OF PRINT Founded in 1892 as North Carolina's first state college for women the State Normal and Industrial School quickly transcended its name and original mission From the beginning founder and first President Charles Duncan McIver and his colleagues strove to attain full college status centering on the liberal arts By 1919 that goal was a reality and the institution became the North Carolina College for Women McIver's successor Julius I. Foust set out to make it the state's university for women parallel to the university at Chapel Hill That dream evaporated in the Depression as the Chapel Hill Raleigh and Greensboro campuses consolidated under a single board and most of the graduate work went to Chapel Hill The Greensboro campus became the UNC Woman's College or WC In 1963 all the UNC campuses became coeducational and WC became the University of North Carolina at Greensboro or UNCG UNCG has become a metropolitan university a category sometimes called the land grant universities of the 21st century Like its peers UNCG offers an education of national if not worldwide repute yet draws the great majority of its students from the surrounding Greensboro Winston Salem High Point metropolitan area Three quarters of its students now live off campus and reflecting its

Woman's College origins as well as a national trend two thirds are female This book traces the many sometimes dramatic changes seen at the school college university from its 1892 beginning until 1994 They include the physical campus administrative leadership faculty organization status and professional allegiance the institution versus one's academic discipline the curriculum student identity culture and struggles to win freedom from parietal regulations and shifting alumni relations For many years a perception of underfunding and neglect from above bred identity problems on campus Recent years brought other problems from campus expansion and resultant friction with its neighbors to controversy over athletic scholarships to a brief war over control of the Alumni Association Making North Carolina Literate should be of interest to UNCG alumni faculty and students to readers concerned with North Carolina history women's history and the history of higher education Despite Trelease's long association with UNCG as a professor of history he is concise and unsentimental in his appraisals The result is a well written often witty account of the growth of an educational institution and its larger place in North Carolina and the nation News Record The content and bibliography of this book a comprehensive work in progress for over a decade testify to the author's dedicated research and inclusion of a variety of campus constituents The North Carolina Historical Review Hood's meticulous research his exploration of the rural reform experience during the Progressive era and his willingness to place his topic in a larger historiographical context make it a useful model for others to test how representative Nelson and Washington Counties were The Journal of Southern History *Resources in Education*, 1990
