Van de graff generator:

A Van de Graaff generator will apply a charge to its dome and anything else in contact with the dome. When the object in contact is a person, the person is slowly charged. Similar charges accumulating on the person's hair cause repulsion amongst hair strands causing them to stand up.

$$\begin{aligned}
 I &= \frac{dq}{dt} ; Q = DC \cdot V \Rightarrow I = \frac{\Delta Q}{\Delta t} \\
 V &= \frac{dW}{dq} ; Q = DC \cdot V \Rightarrow V = \frac{\Delta W}{\Delta q} \\
 \text{Energy gain} &= \Delta W = V \cdot \Delta q \\
 &= V \cdot I \cdot \Delta t \\
 \therefore \Delta t &= \frac{\Delta W}{V \cdot I}

Physics of the Piano Nicholas J. Giordano, 2010-08-05 A central quest in the study of musical instruments is to understand why the sound of the same note depends greatly on the instrument and to elucidate which aspects of an instrument are most critical in producing the musical tones characteristic of the instrument The primary goal of this book is to investigate these questions for the piano It's All Perfect M W Valbert, 2014-06-20 When HRH Prince John the fourth son of the Queen of England goes AWOL in Seattle he meets Catori Moriarty an unusual girl from New Mexico John hails from a thousand years of British royalty Tori doesn't know who her biological parents were He was raised in a glass box call Buckingham Palace and taught to repress his emotions She was taught how to heal her wounds and live in joy He suffers from debilitating migraines that threaten his career as a pilot in the Royal Navy She can use her extraordinary higher sense perception to heal Both are older than their years and love physics Obviously they were made for each other and their accidental meeting was divinely orchestrated Too bad John's married and off limits and Tori prefers the simple life Did the universe get it wrong Unwilling for the magic to end they set out on a road trip to Tori's home in Albuquerque It's a slice of life journey that ultimately spans three continents and includes two headed snake stops and many perfect moments Along the way they discover that they've been in each other's consciousness since Tori was born and that they can communicate empathically John's career is saved but each return to his ship proves wrenching Tori learns that leaving her comfort zone is good for her soul and his It's a love affair that rocks the British monarchy but the ripples it sends out glisten **The**

Philosophy of Physics Andrew Brown, 1854 *The Perfect Theory* Pedro G. Ferreira, 2018-06-01 One of the best popular accounts of how Einstein and his followers have been trying to explain the universe for decades Kirkus Reviews starred review Physicists have been exploring debating and questioning the general theory of relativity ever since Albert Einstein first presented it in 1915 This has driven their work to unveil the universe's surprising secrets even further and many believe more wonders remain hidden within the theory's tangle of equations waiting to be exposed In this sweeping narrative of science and culture an astrophysicist brings general relativity to life through the story of the brilliant physicists mathematicians and astronomers who have taken up its challenge For these scientists the theory has been both a treasure trove and an enigma Einstein's theory which explains the relationships among gravity space and time is possibly the most perfect intellectual achievement of modern physics yet studying it has always been a controversial endeavor Relativists were the target of persecution in Hitler's Germany hounded in Stalin's Russia and disdained in 1950s America Even today PhD students are warned that specializing in general relativity will make them unemployable Still general relativity has flourished delivering key insights into our understanding of the origin of time and the evolution of all the stars and galaxies in the cosmos Its adherents have revealed what lies at the farthest reaches of the universe shed light on the smallest scales of existence and explained how the fabric of reality emerges Dark matter dark energy black holes and string theory are all
