Sailing Through the Storms of Seizures Jon Sadler, 2018-06-25 Jon has lived with epilepsy for over fifty years. There were times when he was broken and defeated by seizures, then discovered the power of hope. Jon believes he can provide that hope to others dealing with seizure disorders by sharing his experience. In *Sailing Through the Storms of Seizures*, he provides the perspective of the child, student, father, and caregiver. Jon had his first seizure at the age of four and was treated with medication for several years. His seizures returned while in college. At the age of forty-six, his seizures became intractable, and brain surgery was his only option to regain control. There were many people who helped him with his recovery: his family, church counselor, and those he met who faced similar situations. Soon after his surgery, Jon met a man who was distraught over his four-year-old son who suffered from intractable seizures. As Jon shared his experience, he witnessed hope being instilled in the man and his family. He is now a mentor and a counselor focusing on helping people live with epilepsy. His greatest joy comes from his two sons who have been there when needed and accomplished much in their lives and careers.

My Moment of Impact: A Journey with Epilepsy Kerri Croake, 2022-11-15 The word Epilepsy is derived from the Greek root *lep* meaning to grab or seize or take hold of. *Epi* means outside of, next to. So epilepsy is a condition in which one is seized by something outside one's control. Imagine living with a condition that is always hanging above your head like the sword of Damocles, not exactly knowing if a seizure will strike or when. The tree of epilepsy has many branches, including seizures, anxiety, mood symptoms, cognitive symptoms, and psychosocial implications, to name a few. It is so refreshing and

clarifying to hear such a strong and insightful voice as Kerri's tell her story. It allows us to get a glimpse into the labyrinth of complexity that living with epilepsy is. I have been treating her for nearly two decades. She has a refractory and severe case of epilepsy but her spirit has been untouched and if anything strengthened. Her wit, intellect, emotional maturity, self-transcendence, perseverance, and steady reflection make this a unique work. It is rare to hear from patients themselves when exploring neurological illnesses as often the illness robs the person of their ability to communicate these complexities with clarity. Not the case with Kerri. This book is one of the best explorations of this illness I have ever seen coming from a patient. Her inborn resources and strengths allow us to walk with her on her journey and get a peak behind the curtains. More important than what it teaches us about epilepsy, we are exposed to a truly remarkable human being whose fire burns bright and whose light and heat provide warmth and illumination for all of us. Taking this stroll with Kerri leads not just to a deeper understanding of how epilepsy works in people's lives but to be empowered and inspired by her story and her personhood, one that shines in all that she does. It is a rare gift. One example of this soul force in Kerri is the simple fact that she wrote a whole book so beautifully in the face of aphasia, language deficits she acquired after her epilepsy surgery. Kerri has been an energizing inspiration in my life as her treating physician. I have no doubt that any reader of this book will also catch that fire.

Visions Linda Sudlesky, Steven C. Schachter, 2020. *Visions: The Inspirational Journeys of Epilepsy Advocates* contains the stories of 50 people who have answered the call to advocate on behalf of those with epilepsy. They are people with epilepsy, family members, or friends who have been motivated by their own unique experiences to make a positive impact in the lives of people who have epilepsy. This book empowers people affected by epilepsy and inspires continued advocacy for what has been a misunderstood and underfunded neurological disorder.

My Shadow Tom Kennaway, 2012. Tom Kennaway, 1836-2011, spent over sixty years successfully living with tonic-clonic grand mal epilepsy. *My shadow* is the story he wrote for his seven-year-old son to explain his philosophy for coping with epilepsy and life. The story is based on the author's life experiences as a jackaroo, a young Australian cowboy at Brewon Station. In this tale, the jackaroo faces several setbacks on his way to breaking in and training his beautiful mare. *Shadow* Back cover.

Epilepsy Fiona Marshall, 2016-01-28. Epilepsy is surprisingly common and affects an enormous number of people, often with extremely debilitating effects on their lifestyle and health. In the last few years, there has emerged growing evidence that complementary and alternative treatments can play an important part in improving the quality of life for many sufferers.

Touching Void KARINA PANDYA, 2021-08-13. *Touching Void: Surviving a Car Accident* is the courageous real-life story of the author who had miraculously survived a horrific car accident as a child and has lived to tell the tale of a debilitating head injury. A must-read for all those who have gone through any type of traumatic experience. A very heart-warming read.
