April Twilights (1903) Willa Cather,2019-11 Before she wrote her prose masterpieces Willa Cather produced striking poems which were collected in 1903 in April Twilights It was her literary debut preceding the publication of O Pioneers by nine years In her introduction distinguished Cather scholar Bernice Slote notes that this early edition of April Twilights restores what had been an almost lost certainly blurred portion of the creative life of a great novelist Among the thirty seven selections are the much anthologized Grandmither Think Not I Forget and the highly evocative Prairie Dawn This new edition includes a new introduction by Robert Thacker which provides new insights into Cather and her poetry

Contemporary British Literature John Matthews Manly, Edith Rickert, 1921 *Bulletin* New Haven Free Public Library, 1900 **Intersections of Gender, Class, and Race in the Long Nineteenth Century and Beyond** Barbara Leonardi, 2018-12-29 This book explores the intersections of gender with class and race in the construction of national and imperial ideologies and their fluid transformation from the Romantic to the Victorian period and beyond exposing how these cultural constructions are deeply entangled with the family metaphor For example by examining the re-signification of the angel in the house and the deviant woman in the context of unstable or contingent masculinities and across discourses of class and nation the volume contributes to a more nuanced understanding of British cultural constructions in the long nineteenth century The central idea is to unearth the historical roots of the family metaphor in the construction of national and imperial ideologies and to uncover the interests served by its specific discursive formation The book explores both male and female stereotypes enabling a more perceptive comparison enriched with a nuanced reflection on the construction and social function of class **Bliss Carman** Gerald Lynch, 1990 The tarnished reputation of this turn of the century poet is persuasively burnished anew by fifteen scholars editors and poets Published in English **Form and Modernity in**

Women's Poetry, 1895-1922 Sarah Parker, 2024-02-29 While W B Yeats's influential account of the Tragic Generation claims that most fin de siècle poets died or at least stopped writing shortly after 1900 this book explodes this narrative by attending to the twentieth century poetry produced by women poets Alice Meynell Michael Field Katharine Bradley and Edith Cooper Dollie Radford and Katharine Tynan While primarily associated with the late nineteenth century these poets were active in the twentieth century but their later writing is overlooked in modernist dominated studies partly due to this poetry's adherence to traditional form This book reveals that these poets far from being irrelevant to modernity used these established forms to address contemporary concerns including suffrage sexuality motherhood and the First World War The chapters focus on Meynell's manipulations of metre to contemplate temporality and literary tradition Michael Field's use of blank verse to portray the conflicted modern woman Radford's adaptation of the aesthetic song like lyric to tackle the experience of the city urban crime and suffrage and Tynan's employment of the ballad to soothe bereaved mothers during the First World War This book ultimately shows that traditional forms played a vital role in shaping mature women poets responses to modernity illuminating debates about form tradition and gender in twentieth century poetry **Modern Drama and Opera**, 1911 **Yeats in Holland** Roselinde Supheert, 2022-06-08 This book presents a broad survey of the Dutch reception of the work of William Butler Yeats during his lifetime Yeats's important wide-ranging oeuvre marks the transition from the nineteenth to the twentieth century The response to his poetry drama and prose exemplifies the Dutch

reception of English romanticism as well as modernism and reveals the workings of canon formation The author has investigated the early days of Dutch Anglistics showing that teachers of English were of little influence in the Yeats reception Instead the Dutch sympathy for the Irish cause and a taste for romantic literature prove to be essential factors in arousing enthusiasm for his early writings Apart from the well publicised performances of *The Only Jealousy of Emer* Yeats modern work was given little attention Although poets like A Roland Holst P N van Eyck and J C Bloem were very well acquainted with Yeats oeuvre and accumulated impressive collections reading modern Yeats largely remained a private affair
