AMI How can panetic angineering impact former well-being and acclety?

March 1997

D NA contains the information living things need to make proteins. The genes within DNA contain enough information to produce proteins. The "language" of DNA is universal, so the same DNA sequence in different organisms will create the same protein. Genetic engineering allows us to modify organisms DNA, allowing us to also modify the proteins they create.

Model 1: Genetic Engineering:

- What gene was removed from the human cell?
- What was the name of the small, circular dna molecule taken from the bacteria cell?
- How is the "transpecie bacteria" different from the original bacteria?
