## **Political Trust And Disenchantment With Politics International Perspectives:**

*Political Trust and Disenchantment with Politics*, 2014-12-04 That the publics of Western democracies are becoming increasingly disenchanted with their political institutions is part of the conventional wisdom in Political Science This trend is often equated with the expectation that all forms of political attachment and participation show similar patterns of decline Based on empirical underpinnings derived from a range of original and sophisticated comparative analyses from Europe and beyond this collection shows that no such universal pattern of decline exists Nor should it be expected given the diversity of reasons that citizens have to place or withdraw trust and to engage in conventional political participation or in protest Contributors are Christoph Arndt Wiebke Breustedt Christina Eder Manfred te Grotenhuis Alexia Katsanidou Rik Linssen Michael P McDonald Ingvill C Mochmann Kenneth Newton Maria Oskarson Suzanne L Parker Glenn R Parker Markus Quandt Peer Scheepers Hans Schmeets Thoralf Stark and Terri L Towner

**Political Confidence and Democracy in Europe** Christian Schnaudt, 2018-07-09 This book examines the antecedents and consequences of citizens confidence in different political institutions and authorities Its main argument states that a distinction between confidence in representative and regulative institutions and authorities is of crucial importance in order to gain novel insights into the relevance of political confidence for the viability of democratic systems Relying on individual level data from the European Social Survey ESS the author provides empirical evidence that citizens from a total of twenty one European countries make a distinction between confidence in representative institutions and authorities and confidence in regulative institutions and authorities Furthermore the author shows that both types of political confidence emanate from different sources and are associated with varying consequences Overall these findings indicate that confidence in representative and confidence in regulative institutions and authorities establish two qualitatively different types of political confidence each with distinct implications for the functioning and well being of modern democracies

**In Praise of Skepticism** Pippa Norris, 2022 A culture of trust is usually claimed to have many public benefits by lubricating markets managing organizations legitimating governments and facilitating collective action Any signs of its decline are and should be a matter of serious concern Yet In Praise of Skepticism recognizes that trust has two faces Confidence in anti vax theories has weakened herd immunity Faith in Q Anon conspiracy theories triggered insurrection Disasters flow from gullible beliefs in fake Covid 19 cures Madoff pyramid schemes Russian claims of Ukrainian Nazis and the Big Lie denying President Biden s legitimate election Trustworthiness involves an informal social contract by which principals authorize agents to act on their behalf in the expectation that they will fulfill their responsibilities with competency integrity and impartiality despite conditions of risk and uncertainty Skeptical judgments reflect reasonably accurate and informed predictions about agents future actions based on their past performance and guardrails deterring dishonesty mendacity and corruption We should trust but verify Unfortunately assessments are commonly flawed Both cynical beliefs underestimating performance and credulous faith over estimating

performance involve erroneous judgements reflecting cultural biases poor cognitive skills and information echo chambers These conclusions draw on new evidence from the European Values Survey World Values Survey conducted among over 650 000 respondents in more than 100 societies over four decades In Praise of Skepticism warns that an excess of credulous trust poses serious and hitherto unrecognized risks in a world full of seductive demagogues playing on our insecurities lying swindlers exploiting our greed and silver tongued conspiracy theorists manipulating our darkest fears Trust Ben Seyd,2024-03-20 We seem to be living in an age of citizen distrust of social and political elites Distrust is also seen to have numerous negative consequences for our civic and democratic life Yet are western democracies really facing a crisis of trust This book provides an extensive and up to date review of one of the most important topics in contemporary political life It explores the nature and condition of trust today by exploring three key issues What do we mean by trust How far are levels of trust in decline How damaging are the consequences of low trust for effective democratic governance Seyd also considers how trust arises and which factors might explain the declines in trust witnessed recently in many countries Providing evidence from many countries Trust How Citizens View Political Institutions pays particular attention to Britain which has seen a marked decline in public regard for political elites making the country a vital case for identifying the causes and effects of low trust Combining conceptual and empirical analysis the book provides a timely analysis of a central issue in contemporary political debate **Political Representation in France and Germany** Oscar W. Gabriel,Eric Kerrouche,Suzanne S. Schüttemeyer,2018-06-28 Notwithstanding its contemporary critics political representation remains at the core of democratic politics Based on a comparative research project that gathered data from observations surveys experiments and expert interviews this book examines the process and the quality of political representation in France and Germany from a dual perspective First it analyzes MPs behavior during their district activities Second it investigates the perceptions and evaluations of the represented the French and German citizens In ten chapters different facets of MPs activities as well as citizens attitudes are comparatively investigated The book is relevant for Politics scholars and practitioners at national parliaments to better understand representative democracies and it may also contribute to improve representation itself Social Licensing and Mining in South Africa Sethulego Matebesi,2019-12-05 This book highlights the role of community trusts in social licencing through the lens of mining and mining disputes in South Africa Employing elements of trust acceptance and elite interaction as a framework this book critically investigates the underlying dynamics of community development trusts and also the response of host communities to the inherent dilemma of the SLO concept namely social legitimation versus corporate profits Looking at formal versus informal regulatory requirements popular mobilisation and the interaction between the local population and mining companies this book constitutes a thorough look at the issues surrounding mining in South Africa and its effect on society This book will be of interest to students and scholars of African studies business in Africa corporate responsibility and development studies *Analysing the Trust-Transparency*

*Nexus* Ian Stafford, Alistair Cole, Dominic Heinz, 2023-09-12 Drawing on fieldwork from the UK France and Germany this volume addresses the relationship between trust and transparency in the context of multi level governance *Sociology*

Anthony Giddens, Philip W. Sutton, 2021-03-16 Over a million copies sold worldwide The indispensable guide to understanding the world we make and the lives we lead This thoroughly revised and updated ninth edition remains unrivalled in its vibrant engaging and authoritative introduction to sociology The authors provide a commanding overview of the latest global developments and new ideas in this fascinating subject Classic debates are also given careful coverage with even the most complex ideas explained in a straightforward way Written in a fluent easy to follow style the book manages to be intellectually rigorous but still very accessible With a strong focus on interactive pedagogy it aims to engage and excite readers helping them to see the enduring value of thinking sociologically The ninth edition includes a solid foundation in the basics of sociology its purpose methodology and theories up to the minute overviews of key topics in social life from gender personal life and poverty to globalization the media and politics stimulating examples of what sociology has to say about key issues in our contemporary world such as climate change growing inequality and rising polarization in societies across the world a strong focus on global connections and the ways that digital technologies are radically transforming our lives quality pedagogical features such as Classic Studies and Global Society boxes and Thinking Critically reflection points as well as end of chapter activities inviting readers to engage with popular culture and original research articles to gather sociological insights The ninth edition sets the standard for introductory sociology in a complex world It is the ideal teaching text for first year university and college courses and will help to inspire a new generation of sociologists *Mistrust Issues* Garfield Benjamin, 2023-09-15 Discussing the political understandings of trust and mistrust in the context of data AI and technology at large this book defines a process of trustification used by governments corporations researchers and the media to legitimise exploitation and the increasing of inequalities *Reforming Democracy* Camille Bedock, 2017-05-12 When why and how are democratic institutions reformed This is the broad question guiding this research rooted in a context of crises of representative democracy Core democratic rules can be understood as the formal political rules regulating the direct relationship between elites within the political system parties and citizens They are therefore the cornerstone of the functioning of any political system This book deals with the context the motives and the mechanisms explaining the incidence of institutional engineering in consolidated European democracies between 1990 and 2015 It is centred on the choice of political elites to use or not to use institutional engineering as a response to the challenges they face This study provides both a better empirical understanding of the world of democratic reforms in consolidated democracies thanks to a new data set covering six dimensions of reform in 18 European countries Secondly the book provides evidence about the link between the lack of political support and democratic reforms and the role of electoral shifts in fostering reforms Thirdly this research shows that the final outcome of a given reform depends on the type of reform at stake and on the process used during the

phase of discussion of the reform though case studies in Ireland France and Italy Ultimately the book demonstrates that contrary to what has been commonly assumed reforms of the core democratic rules are frequent and constitute in most cases an answer of challenged political elites to the erosion of political support and electoral change Comparative Politics is a series for researchers teachers and students of political science that deals with contemporary government and politics Global in scope books in the series are characterised by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit [www.ecprnet.eu](http://www.ecprnet.eu) The series is edited by Emilie van Haute Professor of Political Science Universit libre de Bruxelles Ferdinand M ller Rommel Director of the Center for the Study of Democracy Leuphana University and Susan Scarrow Chair of the Department of Political Science University of Houston
