McDevitt,2004-04-16 As Britain's great power status came to be increasingly challenged in the decades before the First World War one by product of the resultant uncertainty was the weakening of the Victorian middle class consensus of what constituted ideal manhood Britain's empire was not only the source of wealth and power but it simultaneously provided alternative models of masculinity and nationhood Consequently the empire and the commonwealth played an important role in defining imperial gender relations in both Britain and in the colonies and dominions May the Best Man Win investigates the continual re assessment and reassertion of various masculine ideals associated with sport in the British empire between 1880 and 1935 The Reporter's Handbook Carrol Baker Dotson,1926

Sin and Confession in Colonial Peru Regina Harrison, 2014-06-01 A central tenet of Catholic religious practice confession relies upon the use of language between the penitent and his or her confessor In the sixteenth and seventeenth centuries as Spain colonized the Quechua speaking Andean world the communication of religious beliefs and practices especially the practice of confession to the native population became a primary concern and as a result expansive bodies of Spanish ecclesiastic literature were translated into Quechua In this fascinating study of the semantic changes evident in translations of Catholic catechisms sermons and manuals Regina Harrison demonstrates how the translated texts often retained traces of ancient Andean modes of thought despite the didactic lessons they contained In *Sin and Confession in Colonial Peru* Harrison draws directly from confession manuals to demonstrate how sin was newly defined in Quechua lexemes how the role of women was circumscribed to fit Old World patterns and how new monetized perspectives on labor and trade were taught to the subjugated indigenous peoples of the Andes by means of the Ten Commandments Although outwardly confession appears to be an instrument of oppression the reformer Bartolom de Las Casas influenced priests working in the Andes through their agency confessional practice ultimately became a political weapon to compel Spanish restitution of Incan lands and wealth Bringing together an unprecedented study and translation of Quechua religious texts with an expansive history of Andean and Spanish transculturation Harrison uses the lens of confession to understand

the vast and telling ways in which language changed at the intersection of culture and religion *The Shelf List of the
