 Story* Branson Parler, 2022-10-11 Every story entails a way of life and how every way of life implies a big story In Every Body's
 Story Branson Parler focuses on three predominant myths of sexuality in our secular age individualism romance and
 materialism and three dominant myths in Christian circles anti body theology legalism and the sexual prosperity gospel
 exploring how those stories shape our practice Our views of sexuality and our practices around sex are never just about sex
 How we use and view our bodies reveals who what we think God is or is not and who we are If we truly understand the
 biblical logic of marriage sexuality and singleness that they are meant to embody the gospel then we will better understand
 why this witness is so vital As God's self giving faithfulness is put on display by both married and single Christians those
 formed by our secular age will have to ask What if it's true What if there's more What if God really does love us that much
 Rather than viewing our sexuality as an isolated matter of ethics we can see how the gospel places our sexuality in the
 context of God's rescue mission of the world *Critical Perspectives on 21st Century Friendship* Rebecca Bromwich, Olivia

 affinities considering the sexual and non sexual ties of affect and affinity that link a diverse range of contemporary
 friendships that exist cross culturally This highly original book teases out commonalities between experiences of affinity that
 are enmeshed with the differences between social national legal and cultural frameworks that surround these relationships of
 affinity and affect and troubles forms of government and legal regulation that prohibit or fail to recognize the consensual
 interdependence connecting diverse forms of human friendship *A Clinician's Guide to Systemic Sex Therapy* Nancy

Gambescia, Gerald R. Weeks, Katherine M. Hertlein, 2015-12-07 The second edition of *A Clinician's Guide to Systemic Sex Therapy* has been completely revised, updated, and expanded. This volume is written for beginning psychotherapy practitioners in order to guide them through the complexities of sex therapy and help them to be more efficient in their treatment. The authors offer a unique theoretical approach to understanding and treating sexual problems from a systemic perspective, incorporating the multifaceted perspectives of the individual client, the couple, the family, and the other contextual factors. Both beginning and experienced sex relationship therapists will broaden their perspectives with the Intersystem approach and gain information rarely seen in sex therapy texts, such as how to thoroughly assess each sexual disorder, the implementation of various treatment principles and techniques, how to incorporate homework, dealing with ethical dilemmas, understanding different expressions of sexual behavior, and addressing the impact of medical problems on sexuality. Aside from bringing the diagnostic criteria up to date with the DSM-5, this new edition contains a new chapter on sensate focus, an expanded section on assessment, more information about development across the lifespan, and more focus on diversity issues throughout the text.

LGBT-Parent Families Abbie E. Goldberg, Katherine R. Allen, 2012-10-12 *LGBT Parent Families* is the first handbook to provide a comprehensive examination of this underserved area. Additionally, scholarship from regions beyond the U.S., including England, Australia, Canada, and South Africa, is presented. In addition to gender and sexuality, all contributors address issues of social class, race, and ethnicity in their chapters.

The Dilemma of Coalition Instability in Consensual Nonmonogamy James K. Beggan, 2020-11-18 Different forms of consensual nonmonogamy, such as polyamory and swinging, have achieved greater prominence in daily conversation and representation in mass media. Although advocates recognize that the presence of additional people creates difficulties, the author argues that this greater complexity may lead to unavoidable instability. Drawing from classic work by Georg Simmel as well as modern research in the social sciences, James K. Beggan considers how the presence of a third person is what allows the formation of coalitions, which then become part of the process that can break apart the triad. This paradox, explained with reference to game theory and social interdependence, represents the existential threat to the quest for consensual nonmonogamy. Beggan describes how psychological processes involving social comparison and gender and sexual orientation can limit the formation of certain types of coalitions, which in turn influence which relationships can be expected to emerge in the context of consensual nonmonogamy. His analysis includes macro-level social issues related to establishing consensual nonmonogamy as a valid social identity and alternative.
