*Robert Ludlum's The Paris Option* Robert Ludlum, Gayle Lynds, 2010-04-01 For 30 years Robert Ludlum's novels have set the standard for the finest in international intrigue and suspense. With an unbroken string of bestsellers in almost every country in the world, Robert Ludlum's books have been enjoyed by hundreds of millions of readers and are widely acknowledged as classics in the field. Now, after the bestselling Covert One novels *The Hades Factor* and *The Cassandra Compact*, comes the third thrilling novel in the series *The Paris Option*. A fiery explosion in the dark of night shatters one of the laboratory buildings in Paris's esteemed Pasteur Institute. Among the dead is Emile Chambord, one of the leaders in the global race to create a molecular or DNA computer. Unfortunately, Professor Chambord kept the details of his work secret, and his notes were apparently destroyed in either the bomb blast or the raging fire that followed. The scientific community does not expect a workable DNA computer to be developed for years. But suddenly, U.S. fighter jets disappear from radar screens for a full five minutes, and there's no explanation. Utilities across the Western states cease functioning, and all telecommunications abruptly stop with devastating consequences. This is not the work of a clever hacker, although Washington, worried about a panic, assures the public it is. Only the enormous power and speed of a DNA computer could have caused such havoc. Under the cover of visiting his friend Marty Zellerbach, who was severely injured when the Pasteur lab was destroyed, Covert One agent Jon Smith flies to Paris to search for the connection between the Pasteur explosion and the forces now wielding the computer. Following a trail that leads him across two continents, Smith uncovers a web of deception that threatens to wreck havoc and forever reshape the world.

**Robert Ludlum's (TM) The Bourne Betrayal** Eric Van Lustbader, 2007-06-05 New York Times bestselling author Eric Van Lustbader brings another pulse-pounding Jason Bourne thriller as Bourne's last friend in the world goes missing, and Bourne will do anything to bring him home. Already devastated by loss, Bourne is shattered by a report that his last friend in the world, Martin Lindros, has gone missing. A CIA deputy director, Lindros was in Ethiopia tracking suspicious shipments of yellowcake uranium and atomic bomb weaponry. His last lifeline to humanity, Bourne will not let Lindros go. Despite his hatred for CIA, Bourne sets out to rescue his friend and finish the job: dismantling a terrorist network determined to build nuclear armaments by cutting off their source of money. But Bourne doesn't realize that these men, Islamic supremacists, are leaders of an incredibly dangerous, technologically savvy group with ties from Africa across the Middle East and into Eastern Europe and Russia. They have predicted Bourne's every move and are counting on his unwitting help in their plans to destroy America.

Altman Code is the latest volume in the series of novels featuring Robert Ludlum's Covert One. In the middle of the night on the dark waterside docks of Shanghai a photographer is recording cargo being secretly loaded when he is brutally killed and his camera destroyed. Shortly thereafter Covert One director Fred Klein brings the word to the President that there is a Chinese cargo ship rumored to be carrying tons of chemicals to be used by a rogue nation to create new biological weapons. The President cannot let the ship land and risk the consequences of a new stockpile of deadly chemical weapons. Klein is ordered to get the President solid proof of what the Chinese ship is ferrying. Covert One agent Jon Smith is sent to rendezvous in Taiwan with another agent who has acquired the ship's true manifest. But before Smith can get the document the two agents are ambushed, the second agent is murdered, the proof is destroyed, and Smith escapes with only his life, scant clues to mystery behind the cargo ship, and a verbal message: the President's biological father is still alive, held prisoner by the Chinese for fifty years. As the Chinese cargo ship draws ever closer to its end port, Smith must race against the clock to uncover the truth about the ship and its cargo, a truth that probes the deepest secrets of the Chinese ruling party, the faction in Washington working to undermine the elected government and the international cabal who is thrusting the world to the very brink of war.

**Robert Ludlum's (TM) The Bourne Imperative** Eric Van Lustbader, 2012-06-05 The internationally known Jason Bourne can't help but feel connected to this case as he finds a man also with amnesia and the truth behind his identity could just save Bourne's life. The man Jason Bourne fishes out of the freezing sea is near death, half-drowned and bleeding profusely from a gunshot wound. He awakens with no memory of who he is or why he was shot, and Bourne is eerily reminded of his own amnesia. Then Bourne discovers that the Mossad agent named Rebeka is so determined to find this injured man that she has gone off the grid, cut her ties to her agency, and is now being stalked by Mossad's most feared killer. Do the answers to these mysteries lie back in southeast Lebanon in a secret encampment to which Bourne and Rebeka escaped following a firefight weeks ago? The complex trail links to the mission given to Treadstone directors Peter Marks and Soraya Moore: find the semi-mythic terrorist assassin known as Nicodemus. In the course of Bourne's desperate, deadly search for a secret that will alter the future of the entire world, he will experience both triumph and loss, and his life will never be the same. Now everything turns on the amnesiac Bourne: must he learn his identity and purpose before both he and Rebeka are killed? From Stockholm to Washington D.C., from Mexico City to Beijing, the web of lies and betrayals extends into a worldwide conspiracy of monumental proportions.
