Knight and Thomas Ohlgren set out to correct this discrepancy in their comprehensive collection of all pre seventeenth century Robin Hood tales The editors include such other outlaw figures as Hereward the Wake Eustache the Monk and Fouke le Fitz Waryn to further contextualize the tradition of English outlaw tales In this text the figure of Robin Hood can be viewed in historical perspective from the early accounts in the chronicles through the ballads plays and romances that grew around his fame and impressed him on our fictional and historical imaginations This edition is particularly useful for classrooms with its extensive introductions notes and glosses enabling students of any level to approach the texts in their original Middle English
