Student Stress in Higher Education Aloka, Peter, 2023-12-07 In the realm of higher education the journey to academic success is often accompanied by an array of challenges particularly in the form of stress and its profound impact on mental health The multifaceted nature of these challenges stemming from a variety of factors has sparked significant interest among scholars and educators alike Student Stress in Higher Education delves into the intricate interplay between stressors coping mechanisms and the psychological well being of students within higher education institutions This book addresses a conspicuous gap in existing literature meticulously examining the dimensions of stress uniquely experienced in higher education settings The chapters contained within illuminate various facets of this complex issue From the barriers obstructing effective stress management to the gender disparities in mental health experiences each chapter dissects a critical aspect of the overarching theme The insights garnered from these chapters hold potential to reshape institutional approaches to mental health awareness and support This book serves as a beacon of knowledge for a diverse readership Scholars seeking to explore the nuanced landscape of student well being will find this volume to be an indispensable resource Administrators and counselors entrusted with the welfare of students will discover pragmatic approaches to aid students in acclimating to the challenges of higher education From gender specific stress manifestations to the intricacies of institutional mental health provision this book delivers a holistic perspective Envisioning a future without food waste and food poverty

Leire Escajedo San-Epifanio, Mertxe De Renobales Scheifler, 2023-08-07 Different factors have contributed to what is known as the Contemporary Food Paradox To express this more graphically let us say that more than a third of the food in the world is wasted while almost 800 million people suffer extreme malnutrition Now the Millennium Goals deadline expired we must set the targets for the Sustainable Development Goals for the next decades Many national and international organizations point out the imperative need to give an adequate reply to this paradox Food waste has important economic and environmental implications and in addition there is an undeniable ethical and social justice aspect Beyond the figures of hunger and malnutrition mothers the unweaned and small children die prematurely and young people experience a deficient physical and mental development All these people members of our human family oblige us to recognize their inherent dignity as human beings and their equal and inalienable rights In this work academics from fifteen countries and different disciplines discuss proposals and strategies in order to respond to the desire for a world without waste or food poverty **Kenya**
