ability and effort Even as the country divides itself at every turn the meritocratic ideal that social and economic rewards should follow achievement rather than breeding reigns supreme Both Democrats and Republicans insistently repeat meritocratic notions Meritocracy cuts to the heart of who we are It sustains the American dream But what if both up and down the social ladder meritocracy is a sham Today meritocracy has become exactly what it was conceived to resist a mechanism for the concentration and dynastic transmission of wealth and privilege across generations Upward mobility has become a fantasy and the embattled middle classes are now more likely to sink into the working poor than to rise into the professional elite At the same time meritocracy now ensnares even those who manage to claw their way to the top requiring rich adults to work with crushing intensity exploiting their expensive educations in order to extract a return All this is not the result of deviations or retreats from meritocracy but rather stems directly from meritocracy's successes This is the radical argument that Daniel Markovits prosecutes with rare force Markovits is well placed to expose the sham of meritocracy Having spent his life at elite universities he knows from the inside the corrosive system we are trapped within Markovits also knows that if we understand that meritocratic inequality produces near universal harm we can cure it When The Meritocracy Trap reveals the inner workings of the meritocratic machine it also illuminates the first steps outward towards a new world that might once again afford dignity and prosperity to the American people *Rethinking Higher Education* George Fallis, 2014-01-01 The basic structure of universities and colleges in Ontario one focused primarily on expansion and greater access and put in place in the 1960s is outdated The system is now large enough the eligible age group for entering post secondary studies is shrinking and participation rates are as high as they are likely to go In *Rethinking Higher Education* George Fallis argues that policy makers should shift their attention away from growth and towards improving and diversifying the range of programs available and creating new means of program delivery He calls for increases in honours undergraduate programs and polytechnic education and envisions a group of research intensive universities responsible for doctoral education The existing design Fallis contends neglects the specific needs of graduate education and research layering it on top of a system designed for undergraduate education In addition there is disconnection between Ontario's Ministry of Training Colleges and Universities and the research missions of the universities and colleges themselves Fallis recommends that Ontario establish a system for documenting and assessing the quality of research published at universities Thought provoking and thoroughly argued *Rethinking Higher Education* provides a detailed design for higher education in the twenty first century *Wheel of Time Reread: Books 13-14* Leigh Butler, 2014-06-17 The *Wheel of Time Reread* on Tor.com is an extensive analysis of Robert Jordan's epic fantasy series covering the material chapter by chapter Join Leigh Butler as she summarizes the chapters and comments on the ongoing mysteries of the series gender issues politics history and the many Crowning Moments of Awesome Volume 5 of the collected Tor.com *Wheel of Time Reread* covers books 13 and 14 of The *Wheel of Time* *Towers of Midnight* and *A Memory of Light* co authored by Brandon Sanderson At the Publisher's request
