Praveen Parboteeah, John B. Cullen, 2013-04-12 Business

Ethics provides a thorough review and analysis of business ethics issues using several learning tools Strategic Stakeholder Management as the Theme All chapters use a strategic stakeholder approach as a unifying theme The text is thus the first text that adopts this approach Most business ethics scholars and practitioners agree that successful ethical companies are

the ones that can strategically balance the needs of their various stakeholders By adopting this approach students will be able to see how the various aspects of business ethics are connected Theory based and Application based All chapters have important applicable theories integrated with discussion of how such theories apply in practice Unlike other texts that are either too theoretical or too practical this text provides the appropriate blend of theory and practice to provide deeper insights into the concepts covered in the chapter Global Perspective Unless most other texts this text provides a global perspective on business ethics Most chapters include material pertaining to ethics in global contexts Included are cases about companies in a wide range of countries including Japan U K China and India among many others Cases The text contains over 30 real world global cases Each chapter ends with a short two page case as well as a longer case that varies in length Each has discussions questions at the end Finally each of the four parts ends with a Comprehensive Case proven teaching cases from The Ivey School and other sources

At what Cost Nicholas Freudenberg, 2021 An incisive and powerful investigation of corporate impact on human and planetary well being Freedom of choice lies at the heart of American society Every day individuals decide what to eat which doctors to see who to connect with online and where to educate their children Yet many Americans don't realize that these choices are illusory at best By the start of the 21st century every major industrial sector in the global economy was controlled by no more than five transnational corporations and in about a third of these sectors a single company accounted for more than 40 percent of global sales The available options in food healthcare education transportation and even online presence are largely constructed by corporations whose sweeping influence have made them the public face and executive agents of 21st century capitalism At What Cost confronts how globalization financial speculation monopolies and control of science and technology have enhanced the ability of corporations and their allies to overwhelm influences of government family community and faith As corporations manipulate demand through skillful marketing and veto the choices that undermine their bottom line free consumer choice has all but disappeared and with it the personal protections guarding our collective health At What Cost argues that the world created by 21st century capitalism is simply not fit to solve our most serious public health problems from climate change to opioid addiction However author and public health expert Nicholas Freudenberg also shows that though the road is steep human and planetary well being constitute a powerful mobilizing idea for a new social movement one that will restore the power of individual voice to our democracy With impeccably detailed research and an eye towards a better future At What Cost arms ordinary citizens activists and health professionals with an understanding of how we've arrived at the precipice and what we can do to ensure a healthier collective future

International Retailing Brenda Sternquist, Elizabeth B. Goldsmith, 2018-01-25 Revised edition of International retailing c2007

Strategic Marketing Management: Theory and Practice Alexander Chernev, 2019-01-01 Strategic Marketing Management Theory and Practice offers a systematic overview of the fundamentals of marketing theory defines the key principles of marketing management and presents a value based framework for developing viable market offerings The theory presented stems from the view of marketing as a value creation process that is central to any business enterprise The discussion of marketing theory is complemented by a set of practical tools that enable managers to apply the knowledge contained in the generalized frameworks to specific business problems and market opportunities The information on marketing theory and practice contained in this book is organized into eight major parts The first part defines the essence of marketing as a business discipline and outlines an overarching framework for marketing management that serves as the organizing principle for the information presented in the rest of the book Specifically we discuss the role of marketing management as a value creation process the essentials of marketing strategy and tactics as the

key components of a company's business model and the process of developing an actionable marketing plan. Part Two focuses on understanding the market in which a company operates. Specifically, we examine how consumers make choices and outline the main steps in the customer decision journey that lead to the purchase of a company's offerings. We further discuss the ways in which companies conduct market research to gather market insights in order to make informed decisions and develop viable courses of action. Part Three covers issues pertaining to the development of a marketing strategy that will guide the company's tactical activities. Here, we focus on three fundamental aspects of a company's marketing strategy: the identification of target customers, the development of a customer value proposition, and the development of a value proposition for the company and its collaborators. The discussion of the strategic aspects of marketing management includes an in-depth analysis of the key principles of creating market value in a competitive context. The next three parts of the book focus on the marketing tactics viewed as a process of designing, communicating, and delivering value. Part Four describes how companies design their offerings and specifically how they develop key aspects of their products, services, brands, prices, and incentives. In Part Five, we address the ways in which companies manage their marketing communication and the role of personal selling as a means of persuading customers to choose, purchase, and use a company's offerings. Part Six explores the role of distribution channels in delivering the company's offerings to target customers by examining the value delivery process both from a manufacturer's and a retailer's point of view. The seventh part of the book focuses on the ways in which companies manage growth. Specifically, we discuss strategies used by companies to gain and defend market position and, in this context, address the issues of pioneering advantage, managing sales growth, and managing product lines. We further address the process of developing new market offerings and the ways in which companies manage the relationship with their customers. The final part of this book presents a set of tools that illustrate the practical application of marketing theory. Specifically, Part Eight delineates two workbooks: a workbook for segmenting the market and identifying target customers, and a workbook for developing the strategic and tactical components of a company's business model. This part also contains examples of two marketing plans: one dealing with the launch of a new offering and the other focused on managing an existing offering.

Retail Management Alexander Chernev, A retailer is a business enterprise engaged in the selling of products and services to consumers. This note takes the perspective of a retailer and examines the key decisions a retailer must make in order to successfully serve its target market. The discussion of retail management is complemented by an in-depth overview of two additional topics: the popular retail formats and managing the price image of a retailer. This note is an excerpt from Chapter 17 of *Strategic Marketing Management: Theory and Practice* by Alexander Chernev, Cerebellum Press, 2019.
