The result is an entirely revised and up-to-date textbook that will fully support students undertaking Certificate IV in Bookkeeping and Certificate IV in Accounting. Economic Dignity Gene Sperling, 2020-05-05 Timely and important. It should be our North Star for the recovery and beyond. Hillary Clinton Sperling makes a forceful case that only by speaking to matters of the spirit can liberals root their belief in economic justice in people's deepest aspirations in their sense of purpose and self-worth. The New York Times. When Gene Sperling was in charge of coordinating economic policy in the Obama White House, he found himself surprised when serious people in Washington told him that the Obama focus on health care was a distraction because it was not focused on the economy. How he asked was the fear felt by millions of Americans of being one serious illness away from financial ruin not considered an economic issue. Too often Sperling found that we measured economic success by metrics like GDP instead of whether the economy was succeeding in lifting up the sense of meaning, purpose, fulfillment, and security of people. In *Economic Dignity* Sperling frames the way forward in a time of wrenching change and offers a vision of an economy whose guiding light is the promotion of dignity for all Americans. *Debates in Information Technology*: Amy J. Connolly, T. Grandon Gill, 2015. The purpose of this book is to highlight major debates in Information Technology/IT that might be of interest to fledgling MIS students to help them get a sense of the big ideas in their field. This book is intended for graduate and undergraduate audiences but is easily accessible to practitioners and students alike. Each big idea is presented as a resolution for discussion, one per chapter, and each chapter opens with a broad overview of the resolution followed by pro and con discussions weighing the merits of the issue. These informative chapters should help students quickly get up to speed on

the facts of the issue in order to stimulate more fruitful class discussion Chapters were authored and reviewed entirely by graduate students as part of an online class project spanning two semesters from 2013 to 2014 Over 80 students contributed to writing it Faculty editorship enhanced the chapters consistency and where necessary smoothed the writing style As a whole this work embodies an important achievement for which these students should be commended It shows once again just how capable students really are
