Distribution of Labor Costs

Figure 7.5 shows how the salaries and wages are to be charged to the labor cost accounts.

Start of Payroll Project

October 9, 20--

No. 1 The first payroll in October covered the two workweeks that ended on September 26 and October 3. This payroll transaction has been entered for you in the payroll register, the employees' earnings records, the general journal, and the general ledger. By reviewing the calculations of the wages and deductions in the payroll register and the posting of the information to the employees' earnings records, you can see the procedure to be followed each payday.

Wages and salaries are paid by issuing special payroll checks. When the bank on which they are drawn receives such checks, they will be charged against the payroll cash account.

Observe the following rules in computing earnings each pay period:

1. Do not make any deduction from an employee's earnings if the employee loses less than 15 minutes of time in any day. Time lost that exceeds 15 minutes is rounded to the nearest quarter-hour and deducted. If the time lost by an employee is not to be deducted, the time clerk will make a notation to that effect on the Time Clerk's Report.
