The SAGE Handbook of Child Research Gary B Melton, Asher Ben-Arieh, Judith Cashmore, Gail S. Goodman, Natalie K. Worley, 2013-12-18 It is refreshing to see a book such as this which is both broad in its conceptualization of the field of child research and deep in its focus The volume's editors are paragons of awareness when it comes to the need for interdisciplinary research and theory to illuminate the lives and experience of children James Garbarino Loyola University Chicago Covers a satisfying and unprecedentedly wide range of research relating to childhood The contributors include many eminent international scholars of childhood making the book a valuable resource for child researchers Child advocates will also find the book to be invaluable in their efforts to improve children's well being and to change policies and practices for the better Anne Smith University of Otago A really scintillating collection that will provide a lasting perspective on child studies stimulating and comprehensive Jonathan Bradshaw University of York In keeping with global changes in children's social and legal status this Handbook includes examination of children as family members friends learners consumers people of faith and participants in law and politics The contributors also discuss the methodological and ethical requirements for research that occurs in natural settings and that enables children themselves to describe their perspective The book is divided into three parts Part I Setting Specific Issues in Child Research Part II Population Specific Issues in Child Research Part III Methods in Research on Children and Childhood *Report ...* Chicago (Ill.) Bureau of child study, 1900 **The National Children's Study Research Plan** National Research Council, Institute of Medicine, Board on Population Health and Public Health Practice, Division of Behavioral and Social Sciences and Education, Board on Children, Youth, and Families, Committee on National Statistics, Panel to Review the National Children's Study Research Plan, 2008-07-16 The National Children's Study NCS is planned to be the largest long term study of environmental and genetic effects on children's health ever conducted in the United States It proposes to examine the effects of environmental influences on the health and development of approximately 100 000 children across the United States following them from before birth until age 21 By archiving all of the data collected the NCS is intended to provide a valuable resource for analyses conducted many years into the future This book evaluates the research plan for the NCS by assessing the scientific rigor of the study and the extent to which it is being carried out with methods measures and collection of data and specimens to maximize the scientific yield of the study The book concludes that if the NCS is conducted as proposed the database derived from the study should be valuable for investigating hypotheses described in the research plan as well as additional hypotheses that will evolve Nevertheless there are important weaknesses and shortcomings in the research plan that diminish the study's expected value below what it might be **Office of Education Research Reports, 1956-65** Educational Research Information Center (U.S.), 1967 Office of Education Research Reports, 1956-65, ED 002 747-ED 003 960 Educational Research Information Center (U.S.), 1967 Office of Education Research Reports, 1956-1965 United States.
