The Oxford Handbook of Behavioral Emergencies and Crises Phillip M. Kleespies, 2016-09-19 The Oxford Handbook of Behavioral Emergencies and Crises includes the most up to date and valuable research on the evaluation and management of the most challenging patients or clients faced by mental health providers individuals who are at high risk of suicide of other directed violence or of becoming the victims of interpersonal violence

These are cases in which the outcome can be serious injury or death and there can be negative consequences not only for the patient but also for the patient's family and friends for the assessing or treating clinician and for the patient's clinic or medical center. Virtually all mental health clinicians with an active caseload will see individuals with such issues. This Handbook is comprised of chapters by leading clinicians, researchers, and scholars in this area of practice. It presents a framework for learning the skills needed for assessing and working competently with such high-risk individuals. Chapters draw a distinction between behavioral emergencies and crises and between emergency intervention and crisis intervention. The book examines the interrelated aspects of the major behavioral emergencies that is, for example, the degree to which interpersonal victimization may lead an individual on a pathway to later suicidal or violent behavior or the degree to which suicidal individuals and violent individuals may share certain cognitive characteristics. This resource is not simply a knowledge base for behavioral emergencies; it also presents a method for reducing stress and acquiring skills in working with high-risk people.

The Silver Bullet Solution James E. Gierach, 2023-11-21. What's been missing the past 30 years that prevented voters and leaders from hearing or acting upon the Gierach call and the Civil Society call for legalized controlled and regulated drugs and drug markets? Why the public repulsion from the Silver Bullet Solution to the many tentacled drug prohibition monster? Have you lost a child to fentanyl or heroin overdose? Are you worried about losing a loved one to drug addiction or drug accident? Is your neighborhood threatened by violent crime and gangs? Is it safe for your child to get to school, go to the park, or play outside? Do you live in a safe suburban neighborhood but yet feel like you need a firearm to be safe in your own home, car, or traveling on a big city expressway? Do you believe the World War on Drugs 62 years old has been a dismal failure and ongoing drug seizures by the ton are evidence of that failure? Regardless of color, does it anger you that Blacks, Latinos, and poor Whites are sitting in American prisons for drug crimes at disparate rates? Did you know that drug prohibition causes needless bullet holes and that bullet hole healthcare greatly contributes to an unaffordable healthcare system, whether called Obamacare, Trumpcare, or Single Payer? This book offers answers to these challenges and it broadcasts the idea that there is something YOU CAN DO about it. You can help the new public opinion evolve. **Study**
