Numbers Don't Lie Yago ás, 2020-11 A typical NBA game can yield approximately 2 800 statistical events in thirty two different categories In Numbers Don't Lie Yago Col's started with a simple question How did basketball analytics get from counting one stat the final score to counting thousands He discovered that what we call basketball rules equipment fundamental skills techniques tactics strategies has changed dramatically since its invention and today encompasses many different forms of play from backyards and rec leagues to the NBA Finals Numbers Don't Lie explores the power of data to tell stories about ourselves and the world around us As advanced statistical methods and big data technologies transform sports we now have the power to count more things in greater detail than ever before These numbers tell us about the past present and future that shape how basketball is played on the floor decisions are made in front offices and the sport is marketed and consumed But what is the relationship between counting and what counts between quantification and value In Numbers Don't Lie Col's offers a three part history of counting in basketball First he recounts how big data basketball emerged in the past twenty years examines its current practices and analyzes how it presents itself to the public Col's then situates big data within the deeper social cultural and conceptual history of counting in basketball and beyond and proposes alternative frameworks of value with which we may take fuller stock of the impact of statistics on the sport Ultimately Col's challenges the putative objectivity of both quantification and academic writing by interweaving through this history a series of personal vignettes of life at the intersection of basketball counting and what counts **Resources in Education**, 1994-04 **Subject Index of Modern Books Acquired** British Library, 1927 *Subject Index of Modern Books Acquired 1881/1900-*. Hunt, 2010-01-20 The history of American education is replete with educational reform and to a lesser

extent educational dissent Consider the present you have various forms of privatization school choice the No Child Left Behind act home schooling value added accountability alternative teacher preparation programs on line instruction etc This range of activity is not exceptional For instance consider the past progressive education open education the junior high school the middle school Life Adjustment education career education vocational education the comprehensive high school school to work year round schooling behavioral objectives proficiency exams high stakes testing whole language learning packages and self paced instruction modular scheduling site based management all presented as the way to reform American schools at least in part Then you have the reformers themselves such as John Dewey George Counts Herbert Kohl John Holt Charles Silberman Admiral Hyman Rickover James Bryant Conant all the way back to Horace Mann himself Dissenters and dissenting movements while not as numerous and certainly not as well known in educational circles count the various faith based schools and individuals such as Archbishop Hughes of New York Clearly this is an area rich in ideas rife with controversy and vital in its outcome for individuals and the nation as a whole And yet strangely enough there exists no major encyclopedia bringing the varied strands together in one place as a ready reference for scholars teachers school administrators and students studying to enter the educational profession This two volume work is intended to be that authoritative resource Key themes and topics include biographies of reformers and dissenters theoretical and ideological perspectives key programs and legislation judicial verdicts impacting educational change in America the politics and processes of educational reform and policy making dissent and resistance to reform technology s impact on educational reform A Reader s Guide in the front matter groups entries around such themes to help readers find related entries more easily     *The Nebraska Educational Journal* ,1929
