## **Nys Csea 2014 Salary Schedule:**

*The Roads to Congress 2014* Sean D. Foreman, Robert Dewhirst, 2015-10-30 The 2014 midterm congressional elections provided a view of the attitude of American voters in the sixth year of Barack Obama's presidency. This book provides insight about the formative aspects of the 2014 campaign season as well as in-depth coverage of key races for Congress. The first section has four chapters that cover the substance of topics that impacted this campaign cycle: the popularity and productivity of the 113th Congress, voter suppression laws passed in many states, the role of Super PACs and independent expenditures in the campaigns, and the use of social media by members of Congress running for reelection. Case studies follow the path of ten House and seven Senate races from inception to election postmortem. The chapters are narrative and provide analysis of an array of interesting and diverse contests from throughout the country. The authors provide succinct and highly readable chapters meant to illustrate the distinctive nature of the campaigns they are examining. Individual campaigns and elections are shown up close and be ready to compare and contrast because of the common format employed throughout the book. Taken together, the chapters reveal that the roads to Congress, while similar in so many ways, each follow a unique route to Capitol Hill.

**National Public Employment Reporter**, 1995 *Integrating Traditional Ecological Knowledge into Ecology, Evolution, and Conservation* Thiago Gonçalves-Souza, Rômulo Romeu Nóbrega Alves, Ulysses Paulino Albuquerque, Washington Soares Ferreira Júnior, 2022-10-05 [Fuzzy Logic Augmentation of Nature-Inspired Optimization Metaheuristics](#)

Oscar Castillo, Patricia Melin, 2014-09-20 This book describes recent advances on fuzzy logic augmentation of nature-inspired optimization metaheuristics and their application in areas such as intelligent control and robotics, pattern recognition, time series prediction, and optimization of complex problems. The book is organized in two main parts which contain a group of papers around a similar subject. The first part consists of papers with the main theme of theoretical aspects of fuzzy logic augmentation of nature-inspired optimization metaheuristics, which basically consists of papers that propose new optimization algorithms enhanced using fuzzy systems. The second part contains papers with the main theme of application of optimization algorithms, which are basically papers using nature-inspired techniques to achieve optimization of complex optimization problems in diverse areas of application.

**Issues for Debate in Social Policy** CQ

Researcher, 2014-05-27 This collection of non-partisan reports focuses on 18 hot-button social policy issues written by award-winning CQ Researcher journalists. As an annual that comes together just months before publication, the volume is as current as possible. And because it's CQ Researcher, the social policy reports are expertly researched and written, showing all sides of an issue. Chapters follow a consistent organization: exploring three issue questions, then offering background, current context, and a look ahead, as well as featuring a pro-con debate box. All issues include a chronology, bibliography, photos, charts, and figures.

**BLS File of State, County, and Municipal Collective Bargaining Agreements, Fall 1977**, 1978 *In Our Hands* Elizabeth Palley, Corey S. Shdaimah, 2014 Working mothers are common in the United States. In over half of all two

parent families both parents work and women's paychecks on average make up 35 percent of their families incomes Most of these families yearn for available and affordable child care but although most developed countries offer state funded child care it remains scarce in the United States And even in prosperous times child care is rarely a priority for U S policy makers In *In Our Hands The Struggle for U S Child Care Policy* Elizabeth Palley and Corey S Shdaimah explore the reasons behind the relative paucity of U S child care and child care support Why they ask are policy makers unable to convert widespread need into a feasible political agenda They examine the history of child care advocacy and legislation in the United States from the Child Care Development Act of the 1970s that was vetoed by Nixon through the Obama administration's Child Care Development Block Grant The book includes data from interviews with 23 prominent child care and early education advocates and researchers who have spent their careers seeking expansion of child care policy and funding and an examination of the legislative debates around key child care bills of the last half century Palley and Shdaimah analyze the special interest and niche groups that have formed around existing policy arguing that such groups limit the possibility for debate around U S child care policy Ultimately they conclude we do not need to make minor changes to our existing policies We need a revolution

*Enough Blame to Go Around* Richard Steier, 2014-01-01 Since 1980 Richard Steier has had a unique vantage point to observe the gains losses and struggles of municipal labor unions in New York City He has covered those unions and city government as a reporter and labor columnist for the New York Post and since 1998 as editor and featured columnist of the Chief Leader a century old independent newspaper that covers city and state government in greater detail than today's mainstream news organizations Drawing from his column with the Chief Leader *Razzle Dazzle Enough Blame to Go Around* describes in vivid terms how the changed economy has drastically altered the city's labor landscape and why it has been difficult for municipal unions to adapt There can be no doubt he writes that public employee unions have contributed to the problems that confront them today including corruption and failed leadership But at the same time and for all their flaws he believes unions represent the best chance for ordinary people to receive fair economic treatment

**Embodying Art** Chiara Cappelletto, 2022-11-08 In recent years neuroscientists have made ambitious attempts to explain artistic processes and spectatorship through brain imaging techniques But can brain science really unravel the workings of art Is the brain in fact the site of aesthetic appreciation Embodying Art recasts the relationship between neuroscience and aesthetics and calls for shifting the focus of inquiry from the brain itself to personal experience in the world Chiara Cappelletto presents close readings of neuroscientific and philosophical scholarship as well as artworks and art criticism identifying their epistemological premises and theoretical consequences She critiques neuroaesthetic reductionism and its assumptions about a mind/body divide arguing that the brain is embodied and embedded in affective cultural and historical milieus Cappelletto considers understandings of the human brain encompassing scientific philosophical and visual and performance arts discourses She examines how neuroaesthetics has constructed its field of study exploring the ways digital renderings and scientific data have been used to produce the brain as a cultural and visual object Tracing the intertwined histories of brain science and aesthetic theory Embodying Art offers a strikingly original and profound philosophical account of the human brain as a living artifact Gesture and Power

Yolanda Covington-Ward, 2015-12-30 In *Gesture and Power* Yolanda Covington Ward examines the everyday embodied practices and performances of the BisiKongo people of the lower Congo to show how their gestures dances and spirituality are critical in mobilizing social and political action

Mobilizing against Inequality Lee H. Adler, Maite Tapia, Lowell Turner, 2014-04-18 Among the many challenges that global liberalization has posed for trade unions the growth of precarious immigrant workforces lacking any collective representation stands out as both a major threat to solidarity and an organizing opportunity Believing that collective action is critical in the struggle to lift the low wages and working conditions of immigrant workers the contributors to *Mobilizing against Inequality* set out to study union strategies toward immigrant workers in four countries Germany France the United Kingdom and United States Their research revealed both formidable challenges and inspiring examples of immigrant mobilization that often took shape as innovative social countermovements Using case studies from a carwash organizing campaign in the United States a sans papiers movement in France Justice for Cleaners in the United Kingdom and integration approaches by the Metalworkers Union in Germany among others the authors look at the strategies of unions toward immigrants from a comparative perspective Although organizers face a different set of obstacles in each country this book points to common strategies that offer promise for a more dynamic model of unionism is the global North The editors have also created a companion website for the book which features literature reviews full case studies updates and links to related publications Visit it at [www.mobilizingagainstinequality.info](http://www.mobilizingagainstinequality.info)

**ISCS 2013: Interdisciplinary Symposium on Complex Systems** Ali Sanayei, Ivan Zelinka, Otto E. Rössler, 2014-02-15 The book you hold in your hands is the outcome of the ISCS 2013 Interdisciplinary Symposium on Complex Systems held at the historical capital of Bohemia as a continuation of our series of symposia in the science of complex systems Prague one of the most beautiful European cities has its own beautiful genius loci Here a great number of important discoveries were made and many important scientists spent fruitful and creative years to leave unforgettable traces The perhaps most significant period was the time of Rudolf II who was a great supporter of the art and the science and attracted a great number of prominent minds to Prague This trend would continue Tycho Brahe Niels Henrik Abel Johannes Kepler Bernard Bolzano August Cauchy Christian Doppler Ernst Mach Albert Einstein and many others followed developing fundamental mathematical and physical theories or expanding them Thus in the beginning of the 17th century Kepler formulated here the first two of his three laws of planetary motion on the basis of Tycho Brahe's observations In the 19th century nowhere differentiable continuous functions of a fractal character were constructed here by Bolzano along with a treatise on infinite sets titled *Paradoxes of Infinity* 1851 Weierstrass would later publish a similar function in

1872 In 1842 Doppler as a professor of mathematics at the Technical University of Prague here first lectured about a physical effect to bear his name later And the epoch making physicist Albert Einstein while being a chaired professor of theoretical physics at the German University of Prague arrived at the decisive steps of his later finished theory of general relativity during the years 1911 1912 In Prague also many famous philosophers and writers accomplished their works for instance playwright Karel Capek coined the word robot in Prague robot comes from the Czech word robota which means forced labor

**Decarceration** Andrew T. Scull, 2014-11-20 Decarceration is a word which has not yet entered the dictionary But it is increasingly being used to designate a process with momentous implications for all of us It is shorthand for a state sponsored policy of closing down asylums prisons and reformatories Mad people criminals and delinquents are being discharged or refused admission to the dumps in which they have been traditionally housed Instead they are to be left at large to be coped with in the community We are told by those who run programs of this sort that keeping the criminal and the mentally disturbed in our midst is humane We are informed that it is a more effective means of curing or rehabilitating such people And miracle of miracles we learn that this approach is also cheaper With an alternative which embraces such an array of virtues who can be surprised to learn that mental hospitals are emptying faster and faster and that with each passing day the convicted felon's chances of going to prison grow more remote On closer examination it turns out that this whole enterprise is built on a foundation of sand The claim that leaving deviants at large cures or rehabilitates them is just that a claim Little or no solid evidence can be offered in its support Instead it rests uneasily on a cloud of rhetoric and wishful thinking Most people's conception of the humane does not embrace placing senile men and women in the hands of rapacious nursing home operators or turning loose the perpetrators of violent crimes under conditions which guarantee that they will receive little or no supervision Yet as decarceration has been implemented this is what has been happening Much of the time it appears as if the policy makers simply do not know what will happen when their schemes are put into effect Nor do they seem very concerned to find out Often they do not even know where those they have dumped back on the rest of us are to be found
