Past Question Paper Civic Education 2014:

Civic Education in the Twenty-First Century Donald M. Gooch, Michael T. Rogers, 2015-09-18 Imagine an America where politicians governmental institutions schools new technologies and interest groups work together to promote informed engaged citizens Civic Education in the Twenty First Century brings together scholars from various disciplines to show how such a United States is possible today Inspired by Alexis de Tocqueville s analysis of American democracy in the early 1800s this edited volume represents a multidimensional evaluation of civic education in its new and varied forms While some lament a civics crisis in America today Civic Education in the Twenty First Century raises hope that we can have an informed and active citizenry We find the activities of a number of politicians government institutions schools and interest groups as promising developments in the struggle to educate and engage Americans in their democracy New technologies and new innovations in civic education have laid the foundation for a revitalized American civic ecology With Civic Education in the Twenty First Century we call for the United States to make these practices less isolated and more common throughout the country The volume is broken into three major sections First there are four chapters exploring the history and philosophical debates about civic education particularly with respect to its role in America s educational institutions Then the second section provides seven groundbreaking inquiries into how politicians and political institutions can promote civic education and engagement through their routine operations As some examples this section explores how politicians through campaigns and judiciaries through community programs enhance civic knowledge and encourage civic engagement This section also explores how new technologies like the Internet and social media are increasingly used by government institutions and other entities to encourage a more politically informed and engaged citizenry Finally the third section contains six chapters that explore programs and practices in higher education that are enhancing civic education engagement and our knowledge of them From the virtual civics campus of Fort Hayes State to citizens academies throughout the country this section shows the possibilities for schools today to once again be civics actors and promoters

Grading Goal Four Antonia Wulff, 2020-04-14 For the third time in three decades world leaders reaffirmed their promise of Education For All when adopting Sustainable Development Goal 4 in 2015 It is the most far reaching commitment to quality and equity in education so far yet there is no consensus on what the agenda means in practice With a decade left until the 2030 deadline Grading Goal Four calls upon the education community to engage more thoughtfully and critically with SDG 4 and related efforts As an ever growing number of actors and initiatives claim to contribute to its achievement it is becoming clear that the ambitious but broad priorities within the goal are vulnerable to cherry picking and misrepresentation placing it at the heart of tensions between instrumentalist and rights based approaches to education This text a critical analysis of SDG 4 provides a framework for examining trends and developments in education globally As the first volume that examines early implementation efforts under SDG 4 Grading Goal Four formulates a critique along with strategies for moving forward By scrutinising the challenges tensions and power dynamics shaping SDG 4 it advances rights based perspectives and strategies for effective implementation and builds capacity for strengthened monitoring and analysis of the goal
