*Mentor Like Jesus* Regi Campbell, Richard Chancy, 2009 More time spent with fewer people equals greater kingdom impact Desiring to see God widely embraced as more than a remote concept entrepreneur Regi Campbell began a deeply successful mentoring program years ago that has become one of his greatest joys Though it seemed radical at first spending more time with less people to further an all important message he soon realized this is the discipleship model Jesus set out during his ministry today two

billion people worldwide embrace the wisdom He entrusted to a small band of disciples two thousand years ago Mentor Like Jesus is Campbell s revelation of what he now calls next generation mentoring an exponentially rewarding process that is resulting in lives changed marriages saved children dealt with in a more loving way Readers of any age and in any situation will clearly understand how the return on a meaningful investment in another person is truly immeasurable **Read It Forward** Linda Kay,2013-09-26 With this practical guide it s easy to implement the proven fun and learning of a read it forward program in your middle school library Teens recommend books to other teens offering a surefire way to promote books and reading Finding the right book for each student is almost impossible if you serve several hundred students as most school librarians do Read It Forward offers an innovative way around that problem a program that lets librarians saturate the school with a title that encourages middle school students to read for pleasure As an added bonus Read It Forward RIF creates learning opportunities that can be leveraged across the curriculum The program presented here is based on the author s experience with a community RIF project that was a collaborative effort among nine middle school librarians from schools with varying needs and socioeconomic levels This thoroughly practical book takes librarians through the process step by step offering specific examples of what worked and what didn t then showing how the process can be extended to almost any book The author also discusses other aspects of running a successful RIF program such as getting buy in from school administrators the PTA and department chairs so that parents and teachers can collaborate in the experience Boomers 3.0 Lawrence R. Samuel,2017-07-14 Capitalizing on what is arguably the most important social phenomenon of our time and place the aging of America this book shows organizations how to market specifically to baby boomers in their third act of life The graying of America is undeniable with an estimated 10 000 boomers turning 65 every day But to dismiss the baby boomer generation as a group no longer worth marketing to would be foolish According to the Census Bureau in 2029 the year when the last boomer will have turned 65 there will still be more than 61 million boomers roughly 17 percent of the projected population of the United States Boomers will still be the wealthiest generation in the United States until at least 2030 according to the Deloitte Center for Financial Services with their share of net household wealth to peak at 50.2 percent by 2020 Boomers 3.0 Marketing to Baby Boomers in Their Third Act of Life describes how to market to baby boomers from a cultural perspective specifically addressing the demographic group of baby boomers in their later adulthood a period that will continue for the next two to three decades The author uses the term 3.0 to indicate the baby boomers third phase of life and explains how this third act of life will differ from earlier periods accordingly organizations should take a different approach to marketing to them than in the past This book offers a way to contextualize business objectives within a culturally based forward thinking framework that fully leverages the opportunities presented by what is perhaps the biggest and most affluent customer base in history Readers will be able to use the strategies described to map territories to stake and mine in targeting boomers create meaningful relationships with individuals in this group and communicate effectively with boomers
