

ANT1400 **Flat Multi-Directional Indoor Antenna** Receives multidirectional phone area notifications. **User's Guide** Basic and Advanced

Congratulations on your purchase of the ANT1400 Flat Multi-Directional Indoor Antenna. While other contemporary antennas, seldom ever are working at the point. Therefore, our entire antenna features the most advanced technology including a patented engineering design that provides excellent reception for both analog and digital TV broadcasts.

Multi-Directional Antennas

A multi-directional antenna is able to receive signals from any direction. Unlike the both analog and digital reception, the ANT1400 is the great, facilitates optimal reception, and requires very little space. The patented multi-directional technology ensures that the antenna does not need to be adjusted according to the location of the transmitting signal.

The Switch from Analog to Digital

Because of the February 1999 switch to digital signals, the ANT1400 has been designed for great reception of both analog and digital signals. Regardless of your reception needs, analog or digital, the ANT1400 provides high-quality reception.

ANT1400 Features:

The ANT1400 Flat Multi-Directional Indoor Antenna is packed with features that make it as functional as it is attractive. Because the ANT1400 is multi-directional, there is no need to constantly turn the antenna to improve reception. And, with its compact flat-panel, the ANT1400 is as unobtrusive, you can hang it on the wall or lay it flat. Its attractive design complements any decor. The ANT1400:

- Operates on virtually all antennas due to patented design
- Features antenna adjustment with multi-directional reception pattern
- Goes great reception in any position—lying flat or hanging
- Takes up minimal space
- Structures modern, contemporary look
