A SOCIAL LIFE

SOCIAL MEDIA DEPRESSION

(AWARD WINNING SHORT FILM)

The short film about social life has a good story that serves as an eye opener to all people who live life or who live their life in social media. People nowadays they are more conscious in making their social life well than the real life.

In my own view point about the short film, some people especially this generation, they tend to be someone or they work their ideal self in different social Media. They lost their selves in the worlds dreams, they been trying to find a way back to themselves. Online or in the front of computer, technology or internet we live the life we always dreamed of. With the rise of different social media networks we forget our life in reality. As it becomes more and more popular people tend to check it more frequently. We make importance of our social media presence and strives to live good life but it only appears in online image it doesn't show in our actually and everyday life. It looks at a new generation of career-focused people that are more obsessed with their online image than life itself. But in the end looking in our reflection of who we really are is the biggest disappointment because in the first place we neglect our true self, we are afraid to show off. We are trying to portray a perfect life online however that's not the reality.
