Successful Summer Reading Programs for All Ages Katie Fitzgerald, 2018-03-01 The summer reading program is the focal point of a children's librarian's year requiring countless hours of preparation and nearly year-round promotion. Summer reading programs for teens and adults are also offered in many communities adding to that workload and bringing together librarians from different departments to accomplish the required tasks. In a single volume *Successful Summer Reading Programs for All Ages: A Practical Guide for Librarians* provides the tools necessary to put together successful summer reading programs for each of these different age groups. Key elements include: Sample program ideas for early childhood, school age, teen and adult readers to suit any summer reading theme; Best practices for promoting summer reading to the community; Troubleshooting for common difficulties associated with summer reading programs; Tips and tricks for using software programs to manage registration and track readers' progress. Public librarians serving children, teens and/or adults will find everything they need to put together a successful summer reading program in this comprehensive handbook.

Handbook of Reading Disability Research Anne McGill-Franzen, Richard Allington, 2010-09-17 Bringing together a wide range of research on reading disabilities, this comprehensive Handbook extends current discussion and thinking beyond a narrowly defined psychometric perspective. Emphasizing that learning to read proficiently is a long-term developmental process involving many interventions of various kinds all keyed to individual developmental needs, it addresses traditional questions: What is the nature or causes of reading disabilities? How are reading disabilities assessed? How should reading disabilities be remediated? To what extent is remediation possible but from multiple or alternative perspectives? Taking incursions into the broader research literature represented by linguistic and anthropological paradigms as well as psychological and educational research, the volume is on the front line in exploring the relation of reading disability to learning and language, to poverty and prejudice and to instruction and schooling. The editors and authors are distinguished scholars with extensive research experience and publication records and numerous honors and awards from professional organizations representing the range of disciplines in the field of reading disabilities. Throughout their contributions are contextualized within the framework of educators struggling to develop concrete instructional practices that meet the learning needs of the lowest achieving readers.
