Rock Criticism Beginning Bruisers Cool Headed:

Rock Criticism from the Beginning Ulf Lindberg, 2005 *Rock Criticism from the Beginning* is a wide ranging exploration of the rise and development of rock criticism in Britain and the United States from the 1960s to the present. It chronicles the evolution of a new form of journalism and the course by which writing on rock was transformed into a respected field of cultural production. The authors explore the establishment of magazines from *Crawdaddy* and *Rolling Stone* to *The Source* and from *Melody Maker* and *New Musical Express* to *The Wire* while investigating the careers of well known music critics like Robert Christgau, Greil Marcus and Lester Bangs in the U S and Nik Cohn, Paul Morley and Jon Savage in the U K to name just a few. While much has been written on the history of rock, this Bourdieu inspired book is the first to offer a look at the coming of age of rock journalism and the critics that opened up a whole new kind of discourse on popular music.

Popular Music and the Poetics of Self in Fiction, 2021-11-29 *Popular Music and the Poetics of Self in Fiction* explores the various links between the self and popular music in contemporary fiction. In the novels discussed in this volume, musical references go far beyond creating a tapestry of sound; they make literary characters come alive by giving an account of the physiological and psychological effects of their musical experiences and of their ways of life in different sub-cultural and social groups. With plots revolving around songs and albums, musicians and bands, and fans and scenes, the thematic focus on the self encompasses the relation of musical taste and identity construction, popular music's function as a medium of individual and collective memory, and its uses in everyday life across decades, spaces, and genres. *Litpop: Writing and Popular Music* Rachel Carroll, Adam Hansen, 2016-05-13 Bringing together exciting new interdisciplinary work from emerging and established scholars in the UK and beyond, *Litpop* addresses the question how has writing past and present been influenced by popular music and vice versa. Contributions explore how various forms of writing have had a crucial role to play in making popular music what it is and how popular music informs literary writing in diverse ways. The collection features musicologists, literary critics, experts in cultural studies, and creative writers organised in three themed sections. *Making Litpop* explores how hybrids of writing and popular music have been created by musicians and authors. *Thinking Litpop* considers what critical or intellectual frameworks help us to understand these hybrid cultural forms. Finally, *Consuming Litpop* examines how writers deal with music's influence, how musicians engage with literary texts, and how audiences of music and writing understand their own role in making *Litpop* happen. Discussing a range of genres and periods of writing and popular music, this unique collection identifies, theorizes, and problematises connections between different forms of expression, making a vital contribution to popular musicology and literary and cultural studies. **The Global Sixties in Sound and Vision** T. Brown, A. Lison, 2014-05-01 Despite the explosion of interest in the global 1960s, the arts in this period, both popular and avant-garde forms, have too often been neglected. This interdisciplinary volume brings together scholars in history, cultural studies, musicology, and other areas to explore the symbiosis of the sonic and the visual in the counterculture.

of the 1960s **Popular Music Matters** Lee Marshall, Dave Laing, 2016-03-23 Simon Frith has been one of the most important figures in the emergence and subsequent development of popular music studies From his earliest academic publication *The Sociology of Rock* 1978 through to his recent work on the live music industry in the UK in his desire to take popular music seriously he has probably been cited more than any other author in the field Uniquely he has combined this work with a lengthy career as a music critic for leading publications on both sides of the Atlantic The contributions to this volume of essays and memoirs seek to honour Frith's achievements but they are not merely about Frith Rather they are important interventions by leading scholars in the field including Robert Christgau Antoine Hennion Peter J Martin and Philip Tagg The focus on sociology and industry and aesthetics and values reflect major themes in Frith's own work which can also be found within popular music studies more generally As such the volume will become an essential resource for those working in popular music studies as well as in musicology sociology and cultural and media studies **Popular Music and**

Making Meaning in Popular Song Theodore Gracyk, 2022-06-16 Winner ASA American Society for Aesthetics 2023 Outstanding Monograph Prize For Theodore Gracyk meaning in popular music depends as much on the context of reception and performer's intentions as on established musical and semantic practices Songs are structures that serve as the scaffolding for meaning production influenced by the performance decisions of the performer and their intentions Arguing against prevailing theories of meaning that ignore the power of the performance Gracyk champions the contextual relevance of the performer as well as novel messaging through creative repurposing of recordings Extending the philosophical insight that meaning is a function of use Gracyk explains how both the performance persona and the personal life of a song's performer can contribute to or undercut ethical and political aspects of a performance or recording Using Carly Simon's *You're So Vain* Pink Floyd the emergence of the musical genre of post punk and the practice of cover versions Gracyk explores the multiple sometimes contradictory notions of authenticity applied to popular music and the conditions for meaningful communication He places popular music within larger cultural contexts and examines how assigning a performance or recording to one music genre rather than another has implications for what it communicates Informed by a mix of philosophy of art and philosophy of language Gracyk's entertaining study of popular music constructs a theoretical basis for a philosophy

[The British National Daily Press and Popular Music, c.1956-1975](#) Gillian A.M. Mitchell,2019-02-28 The British National Daily Press and Popular Music c 1956 1975 constitutes a reappraisal of the reactions of the national daily press to forms of music popular with young people in Britain from the mid 1950s to the 1970s including rock n roll skiffle beat group and rock music Conventional histories of popular music in Britain frequently accuse the newspapers of generating moral panic with regard to these musical genres and of helping to shape negative attitudes to the music within the wider society This book questions such charges and considers whether alternative perspectives on press attitudes towards popular music may be discerned In doing so it also challenges the tendency to perceive evidence from newspapers straightforwardly as a mere illustration of wider social trends and considers the manner in which the post war newspaper industry as a sociocultural entity in its own right responded to developments in youth culture as it faced distinctive challenges and pressures amid changing times
