Yeo, 2016-05-23 A History of the Roman People provides a comprehensive analytical survey of Roman history from its prehistoric roots in Italy and the wider Mediterranean world to the dissolution of the Roman Empire in Late

Antiquity ca A D 600 Clearly organized and highly readable the text s narrative of major political and military events provides a chronological and conceptual framework for chapters on social economic and cultural developments of the periods covered Major topics are treated separately so that students can easily grasp key concepts and ideas *The Image of Political Power in the Reign of Nerva, AD 96-98* Nathan T. Elkins,2017 At age 65 Nerva assumed the role of emperor of Rome just sixteen months later his reign ended with his death Nerva s short reign robbed his regime of the opportunity for the emperor s imperial image to be defined in building or monumental art leaving seemingly little for the art historian or archaeologist to consider In view of this paucity studies of Nerva primarily focus on the historical circumstances governing his reign with respect to the few relevant literary sources *The Image of Political Power in the Reign of Nerva AD 96 98* by contrast takes the entire imperial coinage program issued by the mint of Rome to examine the self representation and by extension the policies and ideals of Nerva s regime The brevity of Nerva s reign and the problems of retrospection caused by privileging posthumous literary sources make coinage one of the only ways of reconstructing anything of his image and ideology as it was disseminated and developed at the end of the first century during the emperor s lifetime The iconography of this coinage and the popularity and spread of different iconographic types as determined by study of hoards and finds and as targeted towards different ancient constituencies offers a more positive take on a little studied emperor Across three chapters Elkins traces the different reverse types and how they would have resonated with their intended audiences concluding with an examination of the parallels between text and coin iconography with previous and subsequent emperors *The Image of Political Power in the Reign of Nerva AD 96 98* thus offers significant new perspectives on the agents behind the selection and formulation of iconography in the late first and early second century showing how coinage can act as a visual panegyric similar to contemporary laudatory texts by tapping into how the inner circle of Nerva s regime wished the emperor to be seen **The Making of the West, Combined Volume** Lynn Hunt,2012-01-04 Students of Western civilization need more than facts They need to understand the cross cultural global exchanges that shaped Western history to be able to draw connections between the social cultural political economic and intellectual happenings in a given era and to see the West not as a fixed region but a living evolving construct These needs have long been central to *The Making of the West* The book s chronological narrative emphasizes the wide variety of peoples and cultures that created Western civilization and places them together in a common context enabling students to witness the unfolding of Western history understand change over time and recognize fundamental relationships Read the preface **Money and Marketing in the Art World** Henrik Hagtvedt,2024-10-21 How does the art market choose its winners thereby also deciding what millions of visitors to galleries and museums will view year after year Whereas art historical writing and contemporary commentary tend to highlight the efforts of specific artists this book illustrates how money and marketing in combination with general trends play decisive roles in shaping the art world and in propelling specific artists and artworks to positions of prominence Today perhaps more

than ever before the high profile art world is primarily shaped by buyers and those who cater to buyers The actual artists although most visible to the public tend to play a secondary role The time seems particularly ripe for transparency about how the art world works given the growth in the art market media attention on and popular interest in high priced art and controversy surrounding public funding for art and the value of art for contemporary society With a combination of marketplace observations marketing insights and relevant research findings this book contributes to increased transparency while providing thought provoking digressions and anecdotes along the way Money and Marketing in the Art World offers an accessible analysis of the art market for scholars and graduate students across arts marketing and management as well as for those more broadly interested in art and business

Resisting Empire Jason A. Whitlark, 2014-07-31 This book offers a fresh reading about the purpose for which Hebrews was written In this book Whitlark argues that Hebrews engages both the negative pressures persecution and positive attractions honor prosperity of its audience's Roman imperial context Consequently the audience of Hebrews appears to be in danger of defecting to the pagan imperial context Due to the imperial nature of these pressures Hebrews obliquely critiques the imperial script according to the rhetorical expectations in

the first century Mediterranean world namely through the use of figured speech This critique is the primary focus of Whitlark's project Whitlark examines Hebrews's figured response to the imperial hopes boasted by Rome along with Rome's claim to eternal rule to the power of life and death and to be led by the true victorious ruler Whitlark also makes a case for discerning Hebrews's response to the challenges of Flavian triumph Whitlark concludes his study by suggesting that Hebrews functions much like Revelation that is to resist the draw of the Christians Roman imperial context This is done in part by providing a covert opposition to Roman imperial discourse He also offers evaluation of relapse theories for Hebrews of Hebrews's place among early Christian martyrdom and of the nature of the resistance that Hebrews promotes

**The Book of Revelation and the Visual Culture of Asia Minor** Andrew R. Guffey, 2019-10-10 The images in the book of Revelation confound even the most seasoned of interpreters In this book Andrew R Guffey argues that part of the confusion stems from the fact that the book of Revelation was first and foremost a work to be seen but that few interpreters address the visuality of the book The Book of Revelation and the Visual Culture of Asia Minor describes a connection between rhetorical discussions of ekphrasis visual culture and John's images a concurrence of images using theory and thick historical description Guffey's analysis situates the text and its rhetorical performativity in the context of ancient visual and rhetorical culture arguing that Revelation is not merely a work of literary craft but also of visual culture

**Anglo-Saxon Styles** Catherine E. Karkov, George Hardin Brown, 2012-02-01 Art historian Meyer Schapiro defined style as the constant form and sometimes the constant elements qualities and expression in the art of an individual or group Today style is frequently overlooked as a critical tool with our interest instead resting with the personal the ephemeral and the fragmentary Anglo Saxon Styles demonstrates just how vital style remains in a methodological and theoretical prism regardless of the object individual fragment or process studied Contributors from a variety of disciplines including literature art history manuscript studies philology and more consider the definitions and implications of style in Anglo Saxon culture and in contemporary scholarship They demonstrate that the idea of style as a constant form has its limitations and that style is in fact the ordering of form both verbal and visual Anglo Saxon texts and

images carry meanings and express agendas presenting us with paradoxes and riddles that require us to keep questioning the meanings of style

**Faith and Freedom in Galatia and Senegal** Aliou Cissé Niang, 2009 Faith and Freedom in Galatia and Senegal reads Galatians 2 11 15 and 3 26 29 through the lens of the 19th 20th century experiences of French colonialism by the Diola people in Senegal West Africa and portrays the Apostle Paul as a sociopostcolonial hermeneut who acted on his self understanding as God's messenger to create through faith in the cross of Christ free communities a self definition that is critical of ancient Graeco Roman and modern colonial lore that justify colonization as a divine mandate Aliou C Niang ingeniously compares the colonial objectification of his own people by French colonists to the Graeco Roman colonial objectifications of the ancient Celts Gauls Galatians and Paul's role in bringing about a different portrayal
