Marvelous Minilessons

for Teaching Intermediate Writing Grades 3-8 Lori Jamison Rog, 2018-02-15 This timely book offers a host of minilessons that focus on comprehensive written communication as one of the essential skills for success. These fresh minilessons explore how to help students go beyond fuzzy thinking and generic voice and organize their thoughts, solve problems, identify key ideas, and reflect on different perspectives. The book argues that writing is important to help students communicate ideas to others as well as document their own thoughts. This buffet of minilessons gives teachers ideas to add to their teaching repertoire so they can help their students work shine a little brighter. *Rubrics for Assessing Student Achievement in Science Grades K-12* Hays B. Lantz, 2004-02-06 I recommend *Rubrics for Assessing Student Achievement in Science Grades K-12* to any school district that is moving toward a standards-based curriculum. It will serve as a valuable tool for assessing student learning. Grace Cisek, Director of Mathematics and Science Curriculum, Chester County Intermediate Unit PA. At last, science educators will now be able to use custom-made rubrics to assess and evaluate student performance in the standards-based science classroom. Combining clarity, detail, utility, and practicality, veteran educator and author Hays B. Lantz Jr. offers the most complete collection of evaluation and assessment tools in science education available today. This concise handbook was designed to improve the quality and uniformity of evaluation as well as assessment of student progress. Written in language appropriate for both students and teachers in grades K-12, there are over 100 ready-to-use performance lists, holistic rubrics, and analytic rubrics that contain clear descriptions of the particular traits and qualities desired in student products and performances. Key features distinguishing this book include: Scoring tools for a wide range of products and performances found in effective science classrooms and programs; Assessment tools that differentiate by learning levels, providing a scaffolding of increasingly complex expectations across the grades; Years of extensive field testing of the evaluative criteria. *Rubrics for Assessing Student Achievement in Science Grades K-12* is a valuable resource that will help to measure what students know and are able to do in the science classroom. It will yield more consistent and defensible judgments, more precise feedback, and sharper student learning and performance. **The Common Core in Action** Deborah J. Jesseman, 2015-06-19 This book addresses Common Core State Standard curriculum resources to assist the school librarian in collaborating with classroom teachers. Librarians are being asked to understand the Common Core State Standards (CCSS) and their implications to programming and instruction as well as to collection development planning. Using lesson plans originally published in *School Library Monthly*, this title builds upon them, adding many additional plans that address CCSS issues. The plans will help you implement the standards and can also be used as stepping stones to facilitate planning conversations and collaboration with teachers to co-teach lessons correlated with the standards. The book begins with an overview of the CCSS: what they are, how they are different from the content standards, and what the implications are for schools where the state has adopted them, including what the CCSS mean for collection development. It then goes on to explore the opportunities the CCSS present for the school librarian looking at how you can become a leader in employing the
