The Coloniality of Animal Monstrous Othering in Children's Books, Films, and Toys Donna Varga, 2024-08-19 The Coloniality of Animal Monstrous Othering in Children's Books Films and Toys examines how the portrayal of animals as physically distorted behaviorally depraved and intellectually defective serves to justify their debasement violation and destruction in materials directed toward young consumers The author argues that this animal monstrous Othering arises from the Eurocentric belief in humans' natural superiority over animals and the right to categorize animals in accordance with a scale of worthiness that

parallels the subjugation of racialized persons The chapters examine a variety of canonical figures like the dissolute wolf of Red Riding Hood stories and the disfigured titular character of the Wonky Donkey picture book alongside non canonical animals including reprobate pigs degenerate sharks self centered flamingos and wicked piranhas To counter this animal debasement Varga juxtaposes these readings with an examination of materials that articulate harmonious animal human interrelationships without dependence on styles of anthropomorphism that diminish animality Children's Writers' & Artists' Yearbook 2026 Bloomsbury Publishing, 2025-07-17 Knowledge advice encouragement and inspiration this book helped turn my dream into reality Alice Oseman writer illustrator of the bestselling Heartstopper series Celebrating its 22nd edition this indispensable Children s Writers Artists Yearbook provides everything you need to know to get your work noticed With thousands of up to date contacts and inspiring articles from dozens of successful writers illustrators and industry insiders it is the ultimate resource on writing and publishing for children of all ages Packed with insights and practical tips it provides expert advice on submitting to agents and publishers writing non fiction and fiction across genres and formats poetry plays broadcast media and illustration self publishing copyright finances and contracts marketing prizes and festivals and much much more New articles for 2026 include Foreword by Ross Montgomery winner of the Children s Book Award 2025 Publishing options for debut writers by Andy Darcy Theo Ghostwriting by Sam Binnie Choosing your audience by Finn Longman Being a successful self published author by Griselda Heppel Writing poems for children by Laura Mucha Author agent contracts by Lydia Silver The many hats of a literary agent by Christabel McKinley Picture book illustration by Si n Roberts Picture book writing by Sital Gorasia Chapman Creating comic books by Jamie Smart Between the covers of this book is everything you need to know to get published Julia Donaldson **International Handbook of Children, Media and Culture** Kirsten Drotner, Sonia Livingstone, 2008-02-19 This essential volume brings together the work of internationally renowned researchers each experts in their field in order to capture the diversity of children and young people s media cultures around the world Why are the media such a crucial part of children s daily lives Are they becoming more important more influential and in what ways Or does a historical perspective reveal how past media have long framed children s cultural horizons or perhaps how families however constituted have long shaped the ways children relate to media In addressing such questions the contributors present detailed empirical cases to uncover how children weave together diverse forms and technologies to create a rich symbolic tapestry which in turn shapes their social relationships At the same time many concerns even public panics arise regarding children s engagement with media leading the contributors also to inquire into the risky or problematic aspects of today s highly mediated world Deliberately selected to represent as many parts of the globe as possible and with a commitment to recognizing both the similarities and differences in children and young people s lives from China to Denmark from Canada to India from Japan to Iceland from the authors offer a rich contextualization of children s engagement with their particular media and communication environment while also pursuing cross cutting themes
