Russia In The Arctic:

Russia in the Arctic Stephen Blank, 2011 The Arctic is the newest sphere of international competition for energy and security access It pits Russia against the other Arctic states These essays fully explore and analyze what is at stake here and what Moscow has done to increase its capability and influence in the Arctic **Russia's Arctic Strategies and the Future of the Far North** Marlene Laruelle, 2013-11-03 This book offers the first comprehensive examination of Russia's Arctic strategy ranging from climate change issues and territorial disputes to energy policy and domestic challenges As the receding polar ice increases the accessibility of the Arctic region rival powers have been maneuvering for geopolitical and resource security

Russia in the Arctic Alexander Sergunin, 2015-12-15 In this timely book the authors provide a detailed analysis of Russia's national interests in the Arctic region They assess Russia's domestic discourse on the High North's role in the system of national priorities as well as of Moscow's bi and multilateral relations with major regional players energy environmental socio cultural and military policies in the Arctic In contrast to the internationally wide spread stereotype of Russia as a revisionist power in the High North this book argues that Moscow tries to pursue a double sided strategy in the region On the one hand Russia aims at defending her legitimate economic interests in the region On the other hand Moscow is open to co operation with foreign partners that are willing to partake in exploiting the Arctic natural resources The general conclusion is that in the foreseeable future Moscow's strategy in the region will be predictable and pragmatic rather than aggressive or spontaneous The authors argue that in order to consolidate the soft power pattern of Russia's behavior a proper international environment in the Arctic should be created by common efforts Other regional players should demonstrate their responsibility and willingness to solve existing and potential problems on the basis of international law

Russia's Arctic Policy in the Twenty-First Century Maria L. Lagutina, 2019-02-07 This book is devoted to the analysis of all aspects of the current Arctic policy of Russia the main strategic interests of Russia and the basics of the current Russian Policy in the region taking into account new global trends This monograph ambitions to compile in one comprehensive study domestic and international aspects of modern Russian Arctic policy based mainly on Russian sources that allowed the author to reveal the specifics of Russian approach to modern Arctic issues It raises a set of important research questions What are the main interests of Russia in the modern Arctic What areas are the priorities in the Russian Arctic policy Who governs the Russian Arctic How are decisions on the Arctic made in Russia What kind of problems is faced the Russian Arctic in global epoch How do bilateral and multilateral relations between Russia and other Arctic states impact regional developments in the Arctic How is Russia dealing with non Arctic states and non state Arctic actors How are Russia's domestic and foreign policy in the Arctic interrelated How is Russia's Arctic policy likely to evolve in the future in a changing global context The book argues that nowadays the Arctic vector is one of the main priorities for Russia's domestic and foreign policies and undoubtedly Russia's future is connected with development of the Arctic a region occupying a large part of the country's

territory On the one hand the main purpose of the current Arctic policy of Russia is the re development and modernization of the Arctic zone of the Russian Federation AZRF after the period of following the breakup of the USSR that was detrimental to the Russian Arctic policies Moreover today the re development of the Arctic is the most important prerequisite of the restoration of Russia s great power status On the other hand it is obvious that current Russia s Arctic strategy should be duly adapted to the new global realities not only the ones formed in the wake of the breakup of the USSR and the end of the Cold War but also to the latest developments as globalization

Russia in the Arctic Stephen Blank,2011 Russia in the Arctic Stephen J Black,Strategic Studies Institute,2019-07-25 The Arctic has returned with a vengeance as an area of international contention Beginning in 2007 Russia has continued to make aggressive moves and claims regarding territory in the Arctic Ocean These moves undoubtedly have been prompted by global climate change and the importance of energy with which Russia believes the Arctic is lavishly supplied These moves apparently were intended to compel other Arctic states like Norway to come to terms with Russia Nonetheless the tendency to invoke military and security issues and instruments in this region of the world continues apace These essays taken from SSI s 2010 conference on Russia fully explore the Russian and international competition for influence and rights over the exploration and commercial exploitation of the Arctic

Russia in the Arctic Strategic Studies Institute,2011-07-01 The Arctic is the newest sphere of international competition for energy and security access It pits Russia against the other Arctic states These essays fully explore and analyze what is at stake here and what Moscow has done to increase its capability and influence in the Arctic

Russia and the Arctic Geir Hønneland,2015-12-18 The world is currently witnessing an Arctic Scramble as the major powers compete to demarcate and occupy Arctic territory The region is known to be home to large gas and oil reserves and its position at the top of the globe holds significant trading and military advantages Yet the territorial boundaries of the region remain ill defined and Russia under the increasingly bold foreign policy of Vladimir Putin has emerged as a forceful power in the region Geir Hønneland investigates the political contexts and international tensions surrounding Russia s actions focusing especially on the disputes which have emerged in the Barents Sea where European and Russian interests compete directly Skillfully delineating Russian policy in the region and analyzing the mineral and environmental consequences of the recent treaty agreements Russia and the Arctic is a crucial addition to our understanding of contemporary International Relations concerning the Polar North

The New Ice Curtain Heather A. Conley,Caroline Rohloff,2015-09-17 The New Ice Curtain explores Russia s strategic ambitions for its Arctic region an understudied and underappreciated region that encompasses nearly the entire northern coast of Eurasia As the Russian Arctic produces 14 percent of Russian GDP 22 percent of its exports and is home to nearly 2 million of its citizens Russia s economic future will increasingly depend on robust Arctic development

Smith, Keir Giles, Conflict Studies Research Centre (Great Britain), Conflict Studies Research Centre (Great Britain) Staff, Defence Academy of the United Kingdom. Advanced Research and Assessment Group, Defence Academy of the United Kingdom Staff, 2007 This paper analyses Russia's claims to territory in the Arctic regions some of which may contain reserves of oil and gas and are of general economic and strategic interest Russia's Arctic Policy in the Twenty-First Century Maria L.
