Compulsory Purchase and Compensation Barry Denyer-Green, 2024-11-20 Compulsory Purchase and Compensation remains the essential guide to this complex and increasingly relevant area of the law Now in its 12th edition no other book presents the same level of information on the law relating to compulsory purchase and compensation in England and Wales in such an accessible way The book is also especially suited to those coming to this complex subject without a specific background in the law and is ideal reading for those students taking planning and built environment modules Surveyors in particular will find this book invaluable Whilst this new edition picks up the very many decisions of the Upper Tribunal and the higher courts since the 11th edition the principal piece of new legislation is the Levelling up and Regeneration Act 2023 One of the controversial provisions in the 2023 Act is the power to include in a compulsory purchase order a direction the effect of which is that in relation to certain limited purposes compensation shall be assessed on the basis that no planning permission would be granted for development on the relevant land in effect no hope value and only existing use values would be paid *Hepatitis C Virus: The Next Epidemic, An issue of Gastroenterology Clinics of North America* K. Rajender Reddy, 2016-01-07 There are over 180 million people with chronic HCV infection worldwide with between 2.7 and 3.9 million in the United States Hepatitis C most significantly affects Asia and Africa with rates up to 15% in countries such as Egypt and

up to 30% in certain regions such as Punjab Pakistan Hepatitis C places a significant burden on the public health infrastructure as it remains the leading cause of chronic liver disease accounting for 50-75% of primary liver cancers and is responsible for 30% of all liver transplantations It is estimated to have cost the United States \$5.5 billion in 1997 comparable to the national cost of asthma \$5.8 billion in 1994 This number is only expected to grow as the current HCV population ages increasing overall rates of compensated cirrhosis end stage liver disease The evolution of directly acting anti virals has ushered in a new era for chronic hepatitis C Ongoing drug development strategy has involved targeting several replication steps of the virus and the hope is to see all oral therapies by late 2014 or early 2015 Thus we are at an exciting cross roads with regard to new information and challenges with HCV rising disease burden with associated high costs the challenges globally and in multiple patient populations and the impending availability of effective and well tolerated treatments Therefore there is a need to commission an exclusive issue of GCNA for HCV
