

## 4 Connecting external devices

Before connecting the power cable (General model only)

Make sure you set the switch position of VOLTAGE SELECTOR according to your local voltage. Voltages are AC 110-120/220-240 V, 50/60 Hz.

### 1 Connect external devices to the unit.

- ① Connect a BD/DVD player to the unit with an HDMI cable.  
If the BD/DVD player is currently connected to the TV directly with an HDMI cable, disconnect the cable from the TV and connect it to the unit.
- ② Connect a TV to the unit with the other HDMI cable.
- ③ Connect a TV to the unit with a digital optical cable.  
This connection is required to play back TV audio on the unit. This connection is not required if your TV supports ARC (Audio Return Channel).
- ④ Connect the power cable to an AC wall outlet.

• For information on how to connect radio antennas in other external devices, see "PRESET/STATION" in "Owner's Manual".

### 2 Turn on the unit, the TV and the BD/DVD player.

### 3 Use the TV remote control to change the TV input to video from the unit.

The connections are complete. Proceed to the next page to optimize the speaker settings.

• By connecting a TV to the unit with an HDMI cable, you can configure the unit's settings with the menu displayed on the TV. In addition, you can select the on-screen menu language from English (default), French, German, Spanish, Russian and Chinese. For details, refer to "Owner's Manual". In this guide, illustrations of English menu screens are used as examples.
