Sandf 2015 Application

Antonio Garcia, Jacob Udo-Udo Jacob

Sandf 2015 Application:

South Africa and United Nations Peacekeeping Offensive Operations Antonio Garcia, 2018-08-17 The creation of the Force Intervention Brigade FIB as the sharp tactical edge of the United Nations Stabilisation Mission in the Democratic Republic of the Congo MONUSCO tasked with the neutralising of armed groups was a watershed moment in the history of modern peace missions What was more significant was that sub Saharan national leaders were instrumental in the creation of the FIB South Africa Tanzania and Malawi but lacked the resources to deploy such a force and consequently the brigade was deployed under the banner of the UN With the legacy of an African Renaissance and its role in the conception of the FIB South Africa remains a critical player in international peace and security in sub Saharan Africa and therefore holds a key strategic role in achieving the FIBs objectives This comes at a critical time where blue helmets are increasingly exposed to complex and challenging security contexts The aim of this work is to provide a conceptual model for South African military future operations and UN offensive peacekeeping operations In this undertaking a layer of military and Clausewitzian theory is added to offensive peacekeeping operations Furthermore there are sections on operational constructs capstone and operating concepts doctrine and structural elements as well a section on mine action This book contributes towards an understanding of the nature of modern strategy through the lens of UN offensive peacekeeping operations and provides insights into operational challenges

Transparent Soil Modelling Technique and Its Application Honghua Zhao, Gangqiang Kong, Wanghua Sui, 2022-11-29 This book systematically introduces the advancement of transparent soil modelling technique and its application The transparent soil modelling technique provides an essential tool for visualizing soil structure interaction and other geotechnical problems such as grouting soil plugging The geotechnical properties of the newest transparent soils were reported on model sand clay and rock In addition more advanced image processing methods were summarized In this book numerous applications of transparent soil modelling techniques for different geotechnical problems were presented and the results obtained are supplemented by numerical calculation and theoretical analysis

Silencing the Guns in Africa Antonio Garcia, Jacob Udo-Udo Jacob, 2025-03-14 The scholarship of this book is drawn from local and international experts by framing critically a number of discourses on matters of security conflict violence and peace on the African continent It is indeed a breath of fresh air to the scientific community largely because it contributes to the on going debates on security issues Dr Ntsikelelo Benjamin Breakfast Director of the Center for Security Peace and Conflict Resolution at Nelson Mandela University This book makes a deep contribution to scholarly literature on conflict studies peacekeeping and peacebuilding in Africa Written largely from the perspective of the applied social sciences it is empirically rich and offers refreshing insights into social behaviour in military contexts This is a timely contribution because current public discourse in South Africa is centred on the gains and missed opportunities of thirty years of democracy and new lenses are welcome Many of the chapters reflect South African experiences This is to be welcomed as it demonstrates that scholars and practitioners

from the country are reflecting on the complexities of South African experiences of defence and security matters in contemporary times Dr Sandy Africa Director of Research at Mapungubwe Institute for Strategic Reflection MISTRA This volume brings together the voices of scholars and practitioners a diverse group of writers who are passionate about and committed to creating a safer more prosperous and peaceful Africa Each with their own specialism this work combines many different world views and approaches Conflict in Africa is an impossibly broad topic to cover in a single edited publication and so we focus on a select number of case studies expositions and themes

Geomining Azer Shukurov,Oksana Vovk,Artur Zaporozhets,Natalia Zuiyevska,2024-10-02 This book represents a comprehensive exploration of the intricate intersection between geology and mining through the lens of system oriented perspectives Geomining stands at the forefront of modern resource extraction blending the principles of geology engineering transport and environmental science to optimize the extraction of minerals and other valuable resources from the Earth s crust It is a dynamic field that continually evolves in response to technological advancements environmental concerns and economic realities In this book we aim to capture the essence of geomining as a holistic system emphasizing the interconnectedness of its various components and the importance of integrated approaches to resource management The geomining is a complex of heavy industry sectors that includes the exploration of mineral deposits the extraction of minerals from the Earth s subsurface and

the enrichment of valuable minerals Among the main groups of the geomining industry the following are distinguished fuel extraction coal oil shale peat natural gas extraction ore mining iron ore manganese ore extraction of non ferrous ores precious and rare metals etc mining and chemical industry extraction of potassium salts rock salt apatites nephelines bauxites sulfur phosphorites etc extraction of mineral raw materials for the construction industry extraction of mineral raw materials for refractory and ceramic industries hydromeliorative activities The concept of a system oriented view on geomining recognizes that mining activities do not occur in isolation but are part of larger interconnected systems that encompass geological environmental social and economic dimensions By adopting a systems perspective we can better understand the complexities inherent in resource extraction and develop more sustainable and efficient mining practices This book is divided into 3 parts each focusing on different aspects of geomining from a systems perspective Contemporary Issues in South African Military Psychology Nicole Dodd,Petrus C. Bester,Justin van der Merwe,2020-05-13 Contemporary Issues in South African Military Psychology is a well timed extremely thought provoking imperative particular to the African context and deals with a highly contemporary issue within the people management and the management studies fields specifically in the military field and context This is specifically of importance as military psychology is a behavioural science that combines theory and practical application Prof Karel Stanz University of Pretoria *Robotic Systems: Concepts, Methodologies, Tools, and Applications* Management Association, Information Resources,2020-01-03 Through expanded intelligence the use of robotics has fundamentally transformed a variety of fields including manufacturing aerospace medicine social services and agriculture Continued research on robotic design is critical to solving various dynamic obstacles individuals enterprises and humanity at large face on a daily basis Robotic Systems Concepts Methodologies Tools and Applications is a vital reference source that delves into the current issues methodologies and trends relating to advanced robotic technology in the modern world Highlighting a range of topics such as mechatronics cybernetics and human computer interaction this multi volume book is ideally designed for robotics engineers mechanical engineers robotics technicians operators software engineers designers programmers industry professionals researchers students academicians and computer practitioners seeking current research on developing innovative ideas for intelligent and autonomous robotics systems **Optimized Genetic Programming Applications: Emerging Research and Opportunities** Hrnjica, Bahrudin,Danandeh Mehr, Ali,2018-07-06 Data is more valuable than ever in the twenty first century and tremendous amounts of data are being generated every second With a fast growing information industry engineers are required to develop new tools and techniques that increase human capabilities of mining useful knowledge from the vast amounts of data Optimized Genetic Programming Applications Emerging Research and Opportunities is an essential reference source that explores the concept of genetic programming and its role in managing engineering problems It also examines genetic programming as a supervised machine learning technique focusing on implementation and application As a resource that

details both the theoretical aspects and implementation of genetic programming this book is a useful source for academicians biological engineers computer programmers scientists researchers and upper level students seeking the latest research on genetic programming *Waste Management: Concepts, Methodologies, Tools, and Applications* Management Association, Information Resources, 2019-12-06 As the world's population continues to grow and economic conditions continue to improve more solid and liquid waste is being generated by society Improper disposal methods can not only lead to harmful environmental impacts but can also negatively affect human health To prevent further harm to the world's ecosystems there is a dire need for sustainable waste management practices that will safeguard the environment for future generations *Waste Management Concepts Methodologies Tools and Applications* is a vital reference source that examines the management of different types of wastes and provides relevant theoretical frameworks about new waste management technologies for the control of air water and soil pollution Highlighting a range of topics such as contaminant removal landfill treatment and recycling this multi volume book is ideally designed for environmental engineers waste authorities solid waste management companies landfill operators legislators environmentalists policymakers government officials academicians researchers and students *Numerical Methods and Implementation in Geotechnical Engineering - Part 1* Y.M. Cheng, J. H. Wang, L. Liang, W. H. Fung Ivan, 2020-04-01 *Numerical Methods and Implementation in Geotechnical Engineering* explains several numerical methods that are used in geotechnical engineering The first part of this reference set includes methods such as the finite element method distinct element method discontinuous deformation analysis numerical manifold method smoothed particle hydrodynamics method material point method plasticity method limit equilibrium and limit analysis plasticity slope stability and foundation engineering optimization analysis and reliability analysis The authors have also presented different computer programs associated with the materials in this book which will be useful to students learning how to apply the models explained in the text into practical situations when designing structures in locations with specific soil and rock settings This reference book set is a suitable textbook primer for civil engineering students as it provides a basic introduction to different numerical methods classical and modern in comprehensive readable volumes **Routledge Handbook of Conflict Response and Leadership in Africa** Alpaslan Özerdem, Sinem Akgül-Açıkmeşe, Ian Liebenberg, 2021-09-14 This handbook explores the challenges and opportunities for leadership and conflict response in the context of Africa at several levels Leadership plays a vital role in affecting conflict response but is frequently only examined at the macro level of state government and international organizations This handbook addresses the need to explore challenges and opportunities for leadership at several levels macro global regional national meso NGOs religious groups academics and micro civil society organizations youth groups women's organizations Analysis from multiple levels provides a broader explanation of conflict dynamics and helps to fit localized conflict transformation approaches into wider national or regional structures The multidisciplinary essays presented in this volume encompass the psychological political and structural dimensions of conflict
