Policy as Practice Patrick Schmidt, 2020 Both in concept and in practice policy has permeated the deepest recesses of civil society and has had particular impact on the lives of those who are actively connected to the educational process For music teachers in particular policy can evoke images of a forbidden environment beyond one's day to day duties and responsibilities Nothing however could be farther from the truth In this book author Patrick Schmidt offers a variety of ways for K-12 music educators to engage with, analyze, and develop effective policy Schmidt first demystifies the notion of policy and the characterization that it is out of reach to teachers before exemplifying how policy both big picture policy and policy as a daily encounter enacted at the local level share many similarities and are indeed co-dependent fragments of the same process The first provides extensive and detailed contextual information offering a conceptual vision for how to consider policy in the fast pace and high adaptability reality of 21st century music education environments The second delivers a practical set of ideas, guidelines, and suggestions specific to music education for a closer and more active interaction with policy directed at providing tools for action in the daily working lives of music educators This approach encourages those who are novice to policy as well as those who would like to further explore and participate in policy action to exercise informed influence within their field, community, and school and ultimately have greater impact in pedagogical, curricular, administrative, and legislative decision making
