Global Education Monitoring Report Global Education Monitoring Report Team, Laboratory of Education Research and Innovation for Latin America and the Caribbean, UNESCO Office Santiago and Regional Bureau for Education in Latin America and the Caribbean, 2020-12-31 **Illinois Textbook Program, 1979-1980**, 1979 **Social Studies** Port Arthur (Tex.). Board of Education, 1935 **ENC Focus**, 2001 Resources in Education, 2000 **Human Rights, Diversity, and National Identity** Patricia E. Bromley, 2011 Fundamental world changes that simultaneously undermine a nation state's charisma and promote the rise of a supra national system have wide ranging effects upon national states within a modern global society My dissertation empirically examines the effects of social and cultural globalization on systems of mass schooling which are central institutions in every country Globally primary and secondary education initially emerged as the premier tool for nation states to create a unified national citizenry loyal to their country and socialized into a common cultural tradition I examine the extent to which this original nationalizing purpose of schooling is challenged by the increased emphases on universal human rights and diversity in civic education The analyses consist of two sections Hierarchical linear models are used to analyze a unique primary data source of 521 social science textbooks from 74 countries during the period 1970-2008 These findings show a worldwide increase in emphasis on human rights and increases in discussions of diversity in well established liberal democracies Cross national quantitative analyses are complemented by a qualitative case study of social science curricula in British Columbia BC which examines nation building within a context of strong emphasis on diversity and human rights The BC study utilizes currently approved high school citizenship education textbooks as well as older textbooks dating back to 1871 It also draws on a selection of historical documents including Ministry of Education reports curricular frameworks and high school exit exams Process wise I find the incorporation of human rights and diversity reflects macro level changes in national and global society Content wise I find four main approaches to reconciling ideas of human rights and diversity with national identity 1 framing human rights and multiculturalism as part of national identity 2 using pedagogical approaches that promote multiple perspectives and individual agency 3 celebrating social and scientific figures and accomplishments as the source of national pride and 4 drawing on exogenous sources to affirm state legitimacy This study is one of the first to theorize that civic education worldwide is moving away from a national focus and to provide empirical evidence of this trend A key implication is that educational systems are being repurposed from their original goal of constructing a unitary national citizenry to a new view emphasizing human diversity and equality in a globally interconnected world Further students are increasingly taught that the global civil society and non state actors are important and legitimate agents of social change *Mathematics and Science Across the Curriculum*, 2002 **El-Hi Textbooks in Print**, 1984 **Research in Education**, 1974 **Linking Picture Book Biographies to National Content Standards** Liz Deskins, Christina H. Dorr, 2015-11-23 Presenting beautifully illustrated picture book biographies this book pairs narrative

nonfiction biographies rich in language and illustrations with national content standards in the social studies science and the arts The current focus on promoting nonfiction reading at all ages has brought to attention the value of narrative nonfiction in the form of new picture book biographies But which of the thousands of these types of titles will have maximum teaching impact and be interesting to students This book identifies the best of the best in new picture book biographies that are rich in language and illustrations and best support national content standards in science social studies and the arts Written by authors with a combined experience of more than 50 years in teaching as well as extensive knowledge of children s literature and the review of such books the book provides in a single resource the best in recently published picture book biographies that rely on primary and secondary sources the best in storytelling styles and the most engaging illustrations The unit and lesson ideas within can be used as is or modified as needed The selected biographies enable connections between the stories of individuals lives in history and required areas of study
