Pathway 6 ,2013 **The New Politics of the Textbook** Heather Hickman, Brad J. Porfilio, 2012-10-13 In an age of unprecedented corporate and political control over life inside of educational institutions this book provides a needed intervention to investigate how the economic and political elite use traditional artifacts in K 16 schools to perpetuate their interests at the expense of minoritized social groups The contributors provide a comprehensive examination of how textbooks the most dominant cultural force in which corporations and political leaders impact the schooling curricula shape students thoughts and behavior perpetuate power in dominant groups and trivialize social groups who are oppressed on the structural

axes of race class gender sexuality and disability Several contributors also generate critical insight in how power shapes the production of textbooks and evaluate whether textbooks still perpetuate dominant Western narratives that normalize and privilege patriotism militarism consumerism White supremacy heterosexism rugged individualism technology and a positivistic conception of the world Finally the book highlights several textbooks that challenge readers to rethink their stereotypical views of the Other to reflect upon the constitutive forces causing oppression in schools and in the wider society and to reflect upon how to challenge corporate and political dominance over knowledge production Leadership

Norton Grubb, 2015-12-03 Principals are responsible for an increasing range of duties in an era of school reform standardized testing and more These responsibilities are even greater in high schools which are many times larger and more complex than elementary and middle schools Yet little has been written on the special challenges of high schools and their leadership This book fills the gap by exploring the challenges specific to high schools including their size and complexity the special difficulties in improving instruction the crucial role of high schools for students futures adolescent behavioral issues and many more Grubb shows how principals and other leaders can address the complexities of multiple pathways or efforts to create theme based trajectories through high school one of the most promising high school reforms Looking to the future he offers alternative ways of preparing professionals for high schools and the responsibilities of districts for improving high schools and their leadership **Textbooks and War** Eugenia Roldán Vera, Eckhardt

Fuchs, 2018-10-04 This volume reflects on the role played by textbooks in the complex relationship between war and education from a historical and multinational perspective asking how textbook content and production can play a part in these processes It has long been established that history textbooks play a key role in shaping the next generation s understanding of both past events and the concept of friend and foe Considering both current and historical textbooks often through a bi national comparative approach the editors and contributors investigate various important aspects of the relationships between textbooks and war including the role wars play in the creation of national identities whether the country is on the winning or losing side the effacement of international wars to highlight a country s exceptionalism or the obscuring of intra national conflict through the ways in which a civil war is portrayed This pioneering book will be of interest and value to students and scholars of textbooks educational media and the relationships between curricula and war
