Raymond Carver, Short cuts, Selected stories et Robert Altman, Short cuts Elisabeth Labadie, 1999 Bien peu de ceux qui ont vu Short Cuts considèrent comme l'un des films majeurs du cinéma américain des années 90 savent qu'il a été tiré de l'œuvre de Raymond Carver S'appuyant principalement sur neuf nouvelles et un poème le cinéaste Robert Altman s'est approprié ce matériau insolite et multiple l'a réorganisé et en a lié subtilement les contenus Comment ces récits l'origine en parallèle ont-ils tout la fois modifiés embossés amplifiés réduits et réunis c'est ce que cet ouvrage se propose d'analyser Les choix opérés par les scénaristes ramenant la mosaïque de narrateurs imaginés par l'écrivain un point de vue unique pour nous qu'ils soient donnent une vision distanciée et inoubliable des microcosmes carveriens transposés dans la Californie de 1992 Unité de temps unité de lieu pour parvenir à un seul récit emplissant des choses innombrables de références aux textes et d'emprunts parfois surprenants Comme certains personnages de Carver et son double l'écran Altman et son scénariste Frank Barhydt coupent ce qui les dérange raccourcissent et remplacent ce qu'ils veulent ou ils le veulent Ils se jouent des contraintes apparentes et des différences fondamentales existant entre les deux systèmes de récit nouvelle et cinéma Le film interroge et renvoie en permanence aux contenus implicites de Carver Ce va-et-vient incessant du film aux textes et des textes au film oblige à porter un regard neuf sur l'univers dépeint par l'écrivain admirer avec quel art de l'ellipse il parle de ce qui l'intéresse La vie toujours la vie

Lee, Susan Rochette-Crawley, 2013-10-31 Although the short story has existed in various forms for centuries it has particularly flourished during the last hundred years Reader s Companion to the Short Story in English includes alphabetically arranged entries for 50 English language short story writers from around the world Most of these writers have been active since 1960 and they reflect a wide range of experiences and perspectives in their works Each entry

is written by an expert contributor and includes biography a review of existing criticism a lengthier analysis of specific works and a selected bibliography of primary and secondary sources The volume begins with a detailed introduction to the short story genre and concludes with an annotated bibliography of major works on short story theory Adaptation Theory and Criticism Gordon E. Slethaug, 2014-06-19 Traditional critics of film adaptation generally assumed a that the written text is better than the film adaptation because the plot is more intricate and the language richer when pictorial images do not intrude b that films are better when particularly faithful to the original c that authors do not make good script writers and should not sully their imagination by writing film scripts d and often that American films lack the complexity of authored texts because they are sourced out of Hollywood The faithfulness view has by and large disappeared and intertextuality is now a generally received notion but the field still lacks studies with a postmodern methodology and lens Exploring Hollywood feature films as well as small studio productions Adaptation Theory and Criticism explores the intertextuality of a dozen films through a series of case studies introduced through discussions of postmodern methodology and practice Providing the reader with informative background on theories of film adaptation as well as carefully articulated postmodern methodology and issues Gordon Slethaug includes several case studies of major Hollywood productions and small studio films some of which have been discussed before Age of Innocence Gangs of New York and Do the Right Thing and some that have received lesser consideration Six Degrees of Separation Smoke Signals Broken Flowers and various Snow White narratives including Enchanted Mirror Mirror and Snow White and the Huntsman Useful for both film and literary studies students Adaptation Theory and Criticism cogently combines the existing scholarship and uses previous theories to engage readers to think about the current state of American literature and film **Raymond Carver** Adam Meyer, 1995 An acknowledged master of the short story Raymond Carver 1938 88 excelled at portraying the hardscrabble existence of blue collar workers frustrated and disillusioned by the false promises of the American dream This terrain was well known to Carver who long worked at blue collar jobs to support his family and personally struggled with the transiency alcoholism economic privation and despair he depicts so poignantly in his fiction At the same time he overcame these obstacles aided by among others the writer John Gardner the editor Gordon Lish and the poet Tess Gallagher to become a major figure in the resurgence of the short story and the revival of realistic writing For collections like Will You Please Be Quiet Please What We Talk About When We Talk about Love and the magnificent Cathedral Carver won honor after honor including nominations for the National Book Award the National Book Critics Circle Award and the Pulitzer Prize And with the 1993 release of Robert Altman s film Short Cuts Carver long known to readers of serious fiction attained widespread public recognition Tracing these themes and more is Adam Meyer s Raymond Carver which considers more of the writer s fiction and poetry than has any previous book length study Writing with luminous clarity Meyer delves into the biographical elements shaping the writer s career and probes Carver s style and subject matter he then examines the majority of the fictional works organizing his material

Masculinity and Place in American Literature since 1950 Vidya Ravi, 2019-05-15 American literature has long celebrated the figure of the self-made man and the idea of establishing selfhood particularly male selfhood in nature However during the crisis of masculinity that swept across America in the middle of the twentieth century a generation of writers started exploring a different kind of a man This was a figure who was concerned not so much with the loss of the West or the desire to recover a wilderness but with how to live in an ordinary domesticated continent Masculinity and Place in American Literature since 1950 explores the role of place in negotiating reinforcing and subverting articulations of hegemonic masculinity in the work of four American writers from the latter part of the 20th century John Cheever John Updike Raymond Carver and Richard Ford The book argues that American fiction by white male writers between the 1950s and the present day is compelled by the troubled and troubling relationship between masculinity and place This relationship is deeply embedded in how ideals of masculinity are predicated upon the experience of the physical world and how the symbolic logic of masculinity is continually subverted by alternative conceptions of dwelling and ecological consciousness Alternative Scriptwriting Ken Dancyger, Jeff Rush, 2012-08-21 Alternative Scriptwriting 4E is an insightful and inspiring book on screenwriting concerned with challenging you to take creative risks with genre tone character and structure Concerned with exploring alternative approaches beyond the traditional three act structure Alternative Scriptwriting first defines conventional approach suggests alternatives then provides case studies These contemporary examples and case studies demonstrate what works what doesn't and why Because the film industry as well as the public demand greater and greater creativity one must go beyond the traditional three act restorative and predictable plot to test your limits and break new creative ground Rather than teaching writing in a tired formulaic manner this book elevates the subject and provides inspiration to reach new creative heights Short cuts, 2008 Several of Raymond Carver's stories are woven with one of the director's own into a mosaic of inter-connected lives in suburban L A While helicopters overhead spray against a Medfly infestation the lives of 22 characters in Los Angeles intersect some casually some to more lasting effect While they go out to concerts and jazz clubs and have their pools cleaned they also lie drink and cheat Death never seems to be far away A look at life and American culture Based on the writings of Raymond Carver DVD of a motion picture first released in 1993 Performed by Andie MacDowell Bruce Davison Julianne Moore Matthew Modine Anne Archer Fred Ward Jennifer Jason Leigh Chris

Robert Altman's Subliminal Reality Robert T. Self, 2002 With his complex and unconventional films Robert Altman often draws an

impassioned response from critics but bafflement and indifference from the general public Some audiences have dismissed his movies as insignificant unsatisfying and unreadable Ironically Altman might agree he makes films in order to challenge filmgoers expectations of straightforward narratives and easily understood endings In Robert Altman s Subliminal Reality Robert T Self sheds light on Altman s work and provides the most comprehensive analysis of his films to date With close readings of classics like MASH McCabe Mrs Miller and Nashville as well as the more recent films The Player Short Cuts and Cookie s Fortune Self asserts the value of Altman s work not only to film theory and the entertainment industry but to American culture Book jacket

Family Journeys Through Peaks and Valleys Demetria Vargas, 2020-04-02 These essays are true narratives about the author s life with her Philippine family of origin It covers her childhood and early adult years in the Philippines between the 1950s and 1970s and her more than three decades of working as a permanent resident in Canada and then continues with her retirement years alternating between these two countries Reflecting on her roles as daughter granddaughter niece and sister to six siblings she describes joyful and unhappy incidents in the context of alliances and alienations formed between her and her elders and those between her and her siblings Stories about her magnificent parents and other elders show how life s joys become more rewarding when shared with deserving meaningful relations those echoing from the valleys are reminders that when a hand is extended to somebody hurting it invariably eases the pain and oftentimes inspires gratefulness and reciprocity Both peak and valley journeys provide a glimpse into the all too often inexplicable intertwining of chance and choice as the actors in this sort of tragicomic family play sought validation for their respective sense of person at certain points in time
