TOUR FIT SYSTEM

M3 utilizes multi-material construction to unlock incredible distance and consistency. While the new Y-Track System provides more customizable adjustability, TaylorMade's new Hammerhead technology also offers increased ball speed and decreased spin on low-face hits. Combined with a thin-face design, M3 provides higher ball speeds across a larger area, resulting in a significantly larger sweet spot. M3 is also equipped with Twist Face technology, which provides more accuracy and straightness on off-center strikes through a revolutionary, reshaped face contour.

LOFT, LIE & FACE ANGLE — LOFT SLEEVE

The 4° Loft Sleeve allows you to adjust the loft, lie and face angle of M3 driver:

- Each of the 12 sleeve movements increases or decreases loft 0.5 - 0.75°
- Each of the 12 sleeve movements increases or decreases lie angle 0.5 - 0.75°
- Each of the 12 sleeve movements increases or decreases face angle 1.0 - 2.0°

ADJUSTING THE M3

Adjusting the M3 family is simple with the TaylorMade torque wrench. Use the wrench to loosen the screw in the center of each weight, then slide the weight to the desired location and lock it in place by tightening the screw until you hear an audible "click" noise from the wrench.

In order to adjust the Loft Sleeve, loosen the screw in the heel until the clubhead releases from the shaft. Align the desired loft as marked on the sleeve with the line on the back of the hosel and tighten the screw until you hear an audible "click" noise.
