4. Explain the concept of Candidate Key, Primary Key and Alternate Key with the help of a suitable example.

Ans:

a) **Candidate Key:** In a table, there may be more than one field that uniquely identifies a record. All such fields are called candidate keys.

b) **Primary Key:** A Primary Key is one of the candidate keys. A table may have more than one candidate keys but definitely has one and only one primary key. c) **Alternate**

Key: Alternate key is candidate key of a table which is not selected as the primary key

Example: For a table with RollNo and Admission_no, Name, Class, Sec, Dues, if RollNo, Admission_No may be used to uniquely identify each row in this Table, so both are candidate keys. Then if we use Admission_No as the Primary Key, the other Candidate Key RollNo is the Alternate Key
