Supporting Reading in Grades 6-12 Sybil M. Farwell, Nancy L. Teger, 2012-06-11 This book presents a curricular framework for students grades 6 12 that school librarians and teachers can use collaboratively to enhance reading skill development promote literature appreciation and motivate young people to incorporate reading into their lives beyond the required schoolwork *Supporting Reading Grades 6 12* A Guide addresses head on the disturbing trend of declining leisure reading among students and demonstrates how school librarians can contribute to the development of lifelong reading habits as well as improve students motivation and test scores The book provides a comprehensive framework for achieving this the READS curriculum which stands for Read as a personal activity Explore characteristics history and awards of creative works Analyze structure and aesthetic features of creative works Develop a literary based product and Score reading progress Each of these five components is explained thoroughly describing how school librarians can encourage students to read as

individuals in groups and as school communities support classroom teachers instruction and connect students to today's constantly evolving technologies. Used in combination with an inquiry information skills model, the READS curriculum enables school librarians to deliver a dynamic balanced library program that addresses AASL's Standards for the 21st Century Learner.

Power Up Your Read-Alouds Andrea Paganelli, 2019-07-16 Capture the hearts, minds, and attention of your digital age listeners using read aloud experiences that engage technology. I wish my learners would be as excited about reading as they are about technology. This is a lament frequently sung by those who seek to support reading development. There is no debate that reading is fundamental and that reading aloud strongly supports lifelong reading engagement. Technology, however, is ubiquitous in our society, and engagement with it is essential for our success. Reading and technology are therefore in competition for learners' attention, but by combining reading and technology through use of read aloud facilitators, we can create engaging digital read aloud programs to enhance the learning experience. Digital read aloud can be used with multiple age groups in a variety of settings and with differing degrees of expense and technology complexity. Understanding that these myriad options can be overwhelming, however, Andrea Paganelli offers detailed information on the background, implementation, evaluation, and sustainability of technology-infused read aloud for reading support persons, school librarians, public librarians, instructional librarians, teachers, and professors. Her ideas span multiple ages and subjects and include practical examples designed to engage both educators and readers.
