Culture and the History of Technology Joshua T. Brinkman, 2024-05-06 Presenting a history of agriculture in the American Corn Belt this book argues that modernization occurred not only for economic reasons but also because of how farmers use technology as a part of their identity and culture Histories of agriculture often fail to give agency to farmers in bringing about change and ignore how people embed technology with social meaning This book however shows how farmers use technology to express their identities in unspoken ways and provides a framework for bridging the current rural urban divide by presenting a fresh perspective on rural cultural practices Focusing on German and Jeffersonian farmers in the 18th century and Corn Belt producers in the 1920s the Cold War and the recent period of globalization this book traces how farmers formed their own versions of rural modernity Rural people use technology to contest urban modernity and debunk yokel stereotypes and women specifically employed technology to resist urban gender conceptions This book shows how this performance of rural identity through technological use impacts a variety of current policy issues and business interests surrounding contemporary agriculture from the controversy over genetically modified organisms and hog confinement facilities to the growth of wind energy and precision technologies Inspired by the author's own experience on his family's farm this book provides a novel and important approach to understanding how farmers' culture has changed over time and why machinery is such a potent part of their identity This book will be of great interest to students and scholars of agricultural history technology and policy rural studies the history of science and technology and the history of farming culture in the USA **The Russian Refugees** Michael Andruff, 2022-11-02 A sweeping family history chronicling the

journey of a group of Russian refugees who settled in rural Alberta in 1924 this book pays tribute to countless people who have found a safe haven in Canada over the past 100 years Every refugee has a story This book follows the life of Nikifor Andriev driven from his homeland in 1924 to settle in Canada as part of a group of 116 privately sponsored Russian refugees Their new home the aptly named Homeglen Alberta was a symbol of promise and prosperity With a newly Anglicized name Nikifor now Michael embarked on the Canadian dream raising a family and eventually leaving Alberta for a better paying industrial job in BC Like countless other refugees and immigrants Nikifor faced the obstacles and opportunities of life in Canada with a determination to succeed against all odds Reinventing himself time and again following numerous setbacks and tragedies he watched his family grow and disburse to pursue their own dreams with the hope that each succeeding generation would have an easier life than the one that came before it Nearly a century after Nikifor's arrival in Homeglen his

son and namesake Michael Andruff reflects upon his family's history the legacy of the refugee experience and the parallels of his father's generation of refugees with people fleeing conflicts in Syria Afghanistan and most recently Ukraine today As the son of a refugee who has benefitted from the stability and prosperity of life in Canada Andruff shares this story as a call to action The descendants and friends of the original group of 116 refugees who settled in Homeglen are asked to contribute to the Homeglen Legacy Fund with the goal of raising 30 000 to privately sponsor a refugee family of four prior to June 2024 the hundred year anniversary of the original group's arrival in Canada Andruff is donating his royalties from the sale of this book to the Homeglen Legacy Fund **The Field Guide to Classic Farm Tractors, Expanded Edition** Robert N.
