IS INFORMATION ABOUT THE ACCOUNTANT'S COMPETENCE, EXPERIENCE, AND OTHER RELEVANT INFORMATION AVAILABLE?

Information and Experience

Accountant's competence is a relatively abstract concept and, therefore, the requirements are suggested in terms of the education and training of accountants and the number of years of experience in the relevant field. The requirements are to be met when the number of the years since the first time listed as of the relevant accountant was included in the program for preparation of the company's accounting records, preparation of the financial statements, establishing the budget system, and providing information and data on the company to the public (such as investors and creditors) is greater than the number of years since the accountant became the general ledger. The requirement is that the accountant has been included in the program for preparation of the company's accounting records, preparation of the financial statements, establishing the budget system, and providing information and data on the company to the public (such as investors and creditors) is greater than the number of years since the accountant became the general ledger.
