**Early Printed Narrative Literature in Western Europe** Bart Besamusca, Elisabeth de Bruijn, Frank Willaert, 2019-11-05 The essays in this volume are concerned with early printed narrative texts in Western Europe The aim of this book is to consider to what extent the shift from hand written to printed books left its mark on narrative literature in a number of vernacular languages Did the advent of printing bring about changes in the corpus of narrative texts when compared with the corpus extant in manuscript copies Did narrative texts that already existed in manuscript form undergo significant modifications when they began to be printed How did this crucial

media development affect the nature of these narratives Which strategies did early printers develop to make their texts commercially attractive Which social classes were the target audiences for their editions Around half of the articles focus on developments in the history of early printed narrative texts others discuss publication strategies This book provides an impetus for cross linguistic research It invites scholars from various disciplines to get involved in an international conversation about fifteenth and sixteenth century narrative literature      Love's Knowledge Martha C. Nussbaum,1990 This volume brings together Nussbaum's published papers on the relationship between literature and philosophy especially moral philosophy The papers many of them previously inaccessible to non specialist readers deal with such fundamental issues as the relationship between style and content in the exploration of ethical issues the nature of ethical attention and ethical knowledge and their relationship to written forms and styles and the role of the emotions in deliberation and self knowledge Nussbaum investigates and defends a conception of ethical understanding which involves emotional as well as intellectual activity and which gives a certain type of priority to the perception of particular people and situations rather than to abstract rules She argues that this ethical conception cannot be completely and appropriately stated without turning to forms of writing usually considered literary rather than philosophical It is consequently necessary to broaden our conception of moral philosophy in order to include these forms Featuring two new essays and revised versions of several previously published essays this collection attempts to articulate the relationship within such a broader ethical inquiry between literary and more abstractly theoretical elements      A Companion to Romance Corinne Saunders,2008-04-15 Romance is a varied and fluid literary genre notoriously difficult to define This groundbreaking Companion surveys the many permutations of romance throughout the ages Considers the literary and historical development of the romance genre from its classical origins to the present day Incorporates discussion of the changing readership of romance and of romance's special relation to women readers Comprises 30 essays written by leading authorities on different periods and sub genres Challenges the idea that the appeal of romance is exclusively escapist Draws on a wide range of specific and influential literary examples      *Morality and Moral Controversies* Steven Scalet,John Arthur,2019-06-18 *Morality and Moral Controversies* 10th Edition challenges students to critically assess today's leading moral social and political issues As a comprehensive anthology it provides students with the tools they need to understand the philosophical ideas that are currently shaping our world The 10th edition includes classic and contemporary readings in moral theory the most current topics in applied ethics and updated debates in social and political philosophy As in the previous nine editions the materials were selected for balance timeliness and accessibility after reviewing a vast range of possible articles from leading scholarly journals mainstream periodicals online posts and book chapters Hallmarks include carefully edited and philosophically relevant U S Supreme Court decisions compelling readings and contrasting points of view that reflect a broad ethical and political spectrum Upon completing this book readers will be able to Understand philosophical ideas that are shaping the world today Apply various philosophical

ideas to politics religion ethics economics personal relationships medicine the environment and climate change warfare and other areas Appreciate how to construct apply and evaluate basic philosophical arguments Key updates to the 10th edition include All material published in the actual book in contrast to placing sections online behind a paywall as was the case in earlier editions with a different publisher New readings on autonomous warfare self driving cars the right to health care technology and privacy the value of democracy racial equality immigration **The English Catalogue of Books: v. [1].**

**1835-1863** Sampson Low, James Douglas Stewart, 1914 Underivative Duty Thomas Hurka, 2011-02-17 A team of eminent contemporary philosophers present the first collective study of seminal British moral thinkers of the late 19th and early 20th centuries Some like Henry Sidgwick and G E Moore are already recognised as leading philosophers of their day Others like Hastings Rashdall and A C Ewing are unjustly neglected **The Year's Work in English Studies** English Association, 1926

God's Own Ethics Mark C. Murphy, 2017-04-26 Every version of the argument from evil requires a premise concerning God's motivation about the actions that God is motivated to perform or the states of affairs that God is motivated to bring about The typical source of this premise is a conviction that God is obviously morally perfect where God's moral perfection consists in God's being motivated to act in accordance with the norms of morality by which both we and God are governed The aim of God's Own Ethics is to challenge this understanding by giving arguments against this view of God as morally perfect and by offering an alternative account of what God's own ethics is like According to this alternative account God is in no way required to promote the well being of sentient creatures though God may rationally do so Any norms of conduct that favor the promotion of creaturely well being that govern God's conduct are norms that are contingently self imposed by God This revised understanding of divine ethics should lead us to revise sharply downward our assessment of the force of the argument from evil while leaving intact our conception of God as an absolutely perfect being supremely worthy of worship

For the Love of Metaphysics Karin Nisenbaum, 2018-09-19 In his Critique of Pure Reason Kant argued that human reason is inherently conflicted because it demands a form of unconditioned knowledge which is unattainable his solution to this conflict of reason relies on the idea that reason's quest for the unconditioned can only be realized practically Karin Nisenbaum recommends viewing this conflict of reason and Kant's solution to this conflict as the central problem shaping the contours of post Kantian German Idealism She contends that the rise and fall of German Idealism is to be told as a story about the different interpretations appropriations and radicalization of Kant's prioritizing of the practical The first part of the book explains why Kant's critics and followers came to understand the aim of Kant's critical philosophy in light of the conflict of reason According to Nisenbaum F H Jacobi and Salomon Maimon set the stage for the reception of Kant's critical philosophy by conceiving its aim in terms of meeting reason's demand for unconditioned knowledge and by understanding the conflict of reason as a conflict between thinking and acting or knowing and willing The manner in which the post Kantian German Idealists radicalized Kant's prioritizing of the practical is the central topic of the second part of the book which

focuses on works by J G Fichte and F W J Schelling The third part clarifies why in order to solve the conflict of reason Schelling and Rosenzweig developed the view that human experience is grounded in three irreducible elements God the natural world and human beings which relate in three temporal dimensions Creation Revelation and Redemption     **A Supplement to the View of the English Editions, Translations and Illustrations of the Ancient Greek and Latin Authors: With Remarks** Lewis William Brüggemann,2023-11-29     **A View of the English Editions, Translations and Illustrations of the Ancient Greek and Latin Authors: With Remarks** Lewis William Brüggemann,2023-11-29
