The Speculative Route explores speculative traditions and science fictional modes across South and Southwest Asia and North Africa SSWANA examining their historical connections inter and intra regional entanglements overlaps and differences Conceptualizing science fiction and fantasy SFF as a mode rather than a genre this volume challenges the putative boundaries between literary and genre fiction through critical studies and essays focusing on SFF from Bangladesh Egypt India Iran Pakistan Palestine Sri Lanka and Turkey It demonstrates the ways in which science fictional modes of thinking and imagination function as critical tools for addressing social cultural and political issues beyond genre conventions and expectations Bringing together articles by leading scholars of SFF and think pieces by acclaimed authors of contemporary SF this volume focuses on central themes such as the relationship between aesthetics and politics alterity world building memory trauma colonialism and decolonization ecology gender religion and mythopoetics It engages with the past present and future of speculative traditions in SSWANA and compares the visions that emerge from these seemingly disparate but historically connected entities Part of the Studies in Global Genre Fiction series this volume will be of great interest to academics students and practitioners in the fields of genre studies notably SF SFF comparative literature media and popular culture area studies postcolonial studies and future studies as well as to readers who are interested in exploring SFF works from the Global South Catalogue of Sanskrit, Pali, and Prakrit Books in the British Museum British Museum.
