

## Running Start Book Assistance Request Form

Running Start students who are eligible for the Fee Waiver and Book Assistance program may submit a request for assistance to cover the cost of required course textbooks or access codes for a maximum amount of \$75 per quarter for the duration of the student's participation in Running Start at Highline College. Students are responsible for paying any remaining textbook costs. The book assistance program does not cover costs for optional textbooks, textbooks for classes below 100-level, or course supplies.

Complete the following steps to submit your book assistance request:

1. Complete this form with the appropriate information for the required textbook(s) you are requesting.
2. Attach a printed copy of your Highline class schedule and submit this form to the Running Start department. Allow up to 24 hours for your request to be processed. Book accounts are active two weeks before the quarter begins and close two weeks after the quarter begins. You will not be reimbursed if you purchase your textbooks outside of this timeframe or before your book assistance request form is approved.
3. When your book account is open, purchase your textbook(s) at the Highline Bookstore; inform the cashier that you have a Running Start book account and provide your Highline College Student ID card. At the end of the quarter, we recommend that you keep any textbooks you may need for classes in future quarters (ex. courses such as math, accounting, and language classes may use the same textbook as you progress through the sequence). We will not be able to assist with purchasing the same textbook again.

List required textbooks for classes you are registered for (do not list waitlisted classes; submit additional requests if needed). If available, used books must be selected first. Optional books, rental books, books for below 100-level courses, and course supplies and materials are not eligible. You are responsible for paying for required textbook costs exceeding \$75.

**Developing Engaged Readers in School and Home Communities** Linda Baker,Peter Afflerbach,David Reinking,2012-12-06 This book comprises a synthesis of current directions in reading research theory and practice unified by what has been referred to as the engagement perspective of reading This perspective guides the research agenda of the National Reading Research Center NRRC a consortium of the University of Georgia University of Maryland and affiliated scholars A major goal of the book is to introduce reading researchers to the engagement perspective as defined by the NRRC and to illustrate its potential to integrate the cognitive social and motivational dimensions of reading and reading instruction Engaged readers are viewed as motivated strategic knowledgeable and socially interactive They read widely for a variety of purposes and capitalize on situations having potential to extend literacy The book is organized into four sections representing key components of the NRRC research agenda and the engagement perspective This perspective emphasizes contexts that influence engaged reading Accordingly the first section of the volume focuses on the social and cultural contexts of literacy development with chapters devoted to examining home influences home school connections and the special challenges facing ethnic minorities The engagement perspective also implies greater attention to the role of motivational and affective dimensions in reading development than traditional views of reading Therefore the second section examines motivational theory and its implications for reading engagement with special attention to characteristics of classroom contexts that promote motivation in reading The

engagement perspective embraces innovative instructional contexts that address the cognitive social and motivational aspects of reading. Thus the third section includes chapters on current directions in promoting children's learning from text on the value of an integrated curriculum in promoting reading engagement and on the challenges of assessing students' development as engaged readers. Finally the broader conception of reading implied by the engagement perspective requires an expanded array of research approaches sensitive to the complex and interacting contexts in which children develop literacy. The concluding section focuses on these important contemporary issues in literacy research and educational research with chapters examining the variety of alternative modes of inquiry gaining prominence in literacy research: teacher inquiry and ethical issues of collaboration between university and teacher researchers. Intended for university-based researchers, graduate students and classroom teachers, this volume brings together researchers who think about students and their literacy development in school and home communities in distinctly different ways. The cooperative and collaborative inquiry presented contributes to a richer understanding of the many factors influencing engaged reading.
