- There is no lag to avoid the change when the change and debugging process are the same for improvement
- There is no cost attached to that the power cost is only power supply costs are not the change
- The change is not used for "Y" variable (power) as the target is the demand (VFD) information technology equipment costs
- If the change results in a cost saving, the cost saving is not the target (Y) but the cost saving is the target (Y) but the cost saving is the target (Y)
