Palmyra after Zenobia AD 273-750 Emanuele E. Egypt in Italy Molly Swetnam-Burland, 2015-04-06 This book examines the appetite for Egyptian and Egyptian looking artwork in Italy during the century following Rome s annexation of Aegyptus as a province In the early imperial period Roman interest in Egyptian culture was widespread as evidenced by works ranging from the monumental obelisks brought to the capital over the Mediterranean Sea by the emperors to locally made emulations of Egyptian artifacts found in private homes and in temples to Egyptian gods Although the foreign appearance of these artworks was central to their appeal this book situates them within their social political and artistic contexts in Roman Italy Swetnam Burland focuses on what these works meant to their owners and their viewers in their new settings by exploring evidence for the artists who produced them and by examining their relationship to the contemporary literature that informed Roman perceptions of Egyptian history customs and myths

Yahweh and the Origins of Ancient

Israel Nissim Amzallag, 2023-06-01 In this book Nissim Amzallag offers new perspectives on the birth of ancient Israel by combining recent archaeological discoveries with a new approach to ancient Yahwism He investigates the renewal of the copper industry in the Early Iron Age Levant and its influence on the rise of new nations and also explores the recently identified metallurgical context of ancient Yahwism in the Bible By merging these two branches of evidence Amzallag proposes that the roots of YHWH are found in a powerful deity who sponsored the emancipation movement that freed Israel from the Amorite Egyptian hegemony Amzallag identifies the early Israelite religion as an attempt to transform the esoteric traditions of Levantine metalworkers into the public worship of YHWH These unusual origins provide insight into many of the unique aspects of Israelite theology that ultimately spurred the evolution towards monotheism His volume also casts new light on the mysterious smelting god the figure around which many Bronze Age religions revolved *Louis Napoleon and the Genesis of the Second Empire* Frank Halliday Cheetham, 1907 *Damascus* Ross Burns, 2019-01-16 Damascus first published in 2005 was the first account in English of the history of the city bringing out the crucial role it has played at many points in the region's past It traces the story of this colourful significant and complex city through its physical development from its emergence in around 7000 BC through the changing cavalcade of Aramaean Persian Greek Roman Byzantine Arab Turkish and French rulers to independence in 1946 This new edition has been thoroughly updated using recent scholarship and includes an additional chapter placing the events of the Syrian post 2011 conflict in the context of the city's tumultuous experiences over the last century This volume is a must read for anyone interested in the sweep of Syrian history and archaeology and is an ideal partner to Burns *Aleppo 2016* Lavishly illustrated *Damascus A History* remains a unique and compelling exploration of this fascinating city **Land and Temple** Benjamin D. Gordon, 2020-04-06 This exploration of the Judean priesthood's role in agricultural cultivation demonstrates that the institutional reach of Second Temple Judaism 516 BCE 70 CE went far beyond the confines of its houses of worship while exposing an unfamiliar aspect of sacred place making in the ancient Jewish experience Temples of the ancient world regularly held assets in land often naming a patron deity as landowner and affording the land sanctity protections Such arrangements can provide essential background to the Hebrew Bible's assertion that God is the owner of the land of Israel They can also shed light on references in early Jewish literature to the sacred landholdings of the priesthood or the temple **The Eschatological Role of the Jerusalem Temple: An Examination of the Jewish Writings Dating from 586 BCE to 70 CE** Eric W. Baker, 2015-06 This research aims to investigate the role or roles of the physical Jerusalem temple within the second temple Jewish writings in terms of whether the physical temple has any role to play in relation to the pivot point in eschatology The pivot point or fulcrum in time refers to the end of the exile and perhaps the beginning of the eschaton The exile may be theological but many second temple Jewish texts address the physical gathering of the children of Israel to the land of Israel i.e. from physical exile even if the text also addresses a theological exile thus making the return a complete ingathering of the children of Israel The passages of

these ancient texts have been analysed before but never with this lens Looking to see if there is any role the Jerusalem Temple performs in expected eschatological events will at least allow an answer to be given which is better than never asking the question in the first place which has been the case until now This study produces results as the Jerusalem Temple has always been a place of great expectations

Values and Revaluations Hans

Peter Hahn, Anja Klöckner, Dirk Wicke, 2022-03-24 Why are some things valuable while others are not How much effort does it take to produce valuable objects How can one explain the different appraisal of certain things in different temporal horizons and in different cultures Cultural processes on how value is attached to things and how value is re established are still little understood The case studies in this volume originating from anthropology and archaeology provide innovative and differentiated answers to these questions However for all contributions there are some common basic assumptions One of these concerns the understanding that it is rarely the value of the material itself that matters for high valuation but rather the appreciation of the assumed or constructed origin of certain objects or their connection with certain social structures A second of these shared insights addresses the ubiquity of phenomena of value in things There is no society without valued objects As a rule valuation is something negotiated or even disputed Value arises through social action whereby it is always necessary to ask anew which actors are interested in the value of certain objects or in their appreciation This also works the other way round Who are those actors who question corresponding objective values and why
