best known for his collaboration with Damian Duffy on the New York Times bestseller and Eisner Award winning graphic novel adaptation of Octavia Butler's *Kindred*. However, Jennings is also a graphic designer and comic book scholar who throughout his career has conducted several interviews that shed light on the importance of Black Speculative narratives. The most enlightening of his interviews are brought together in *John Jennings Conversations*. As a collective, these interviews explore folklore, systemic racism, his Mississippi roots, and the phrase Jennings co-created, the Ethnogothic. Jennings discusses the necessity for Black heroes not just for the sake of diversity but for inclusiveness, touching on the conventions he has co-founded such as the Schomburg Center's Black Comic Book Festival in Harlem. He addresses the struggle to be financially compensated for work and he speaks at length about how being a professor informs his craft, where he continues to examine Black stereotypes in popular culture with courses of his own design. As a group, the interviews in *John Jennings Conversations* give a picture of a Black man forging a way where comic books have afforded him a means to carve out an important space for people of color.

[Africanfuturism](#) Kimberly Cleveland, 2024-02-27 In the past few decades, Western studies of Afrofuturism have grown to encompass examples deriving from multiple sites across the diaspora as well as from the African continent. However, an increasing number of Africans and Africanists have voiced their concerns about grouping African work under the larger umbrella of Afrofuturism without distinction and have emphasized the need to investigate the differences between African American and African production. This book offers an introduction to Africanfuturism, a body of African speculative works that is distinguishable from, albeit related to, US-based Afrofuturism. Kimberly Cleveland uses Africanfuturism as an intellectual lens to explore works that embody combinations of possibilities, challenges, and concerns related to what lies ahead for the continent and its peoples. This book highlights twenty-first century film, video, painting, sculpture, photography, tapestry, novels, short stories, comic books, song lyrics, and architecture by African creatives of different nationalities, races, ethnicities, genders, and generations. Cleveland analyzes the ideas and opinions of African intellectuals and cultural producers, combining interviews with historical research. Each chapter features one of Africanfuturism's most common themes: space and time, exploration, creation of worlds, technology and the digital divide, Sankofa, and remix and mythmaking. This investigation of Africanfuturism is geared toward students, academics, and Afrofuturism enthusiasts, and its included discussion questions facilitate classroom use. The book illuminates Africa's place in the worlds of science fiction and fantasy and how Africanfuturist work builds on the continent's own traditions of speculative expression. Because these creative works disrupt the history of Western domination in Africa, Cleveland also connects Africanfuturism with the process of decolonization and addresses specific ways in which African creatives re-center indigenous beliefs, strategies, and approaches in their production. Africanfuturism encourages both imaginative possibilities and potential real-world outcomes, highlighting the rich contributions of Africans to the vision of future worlds.

Shaping the Future of African American Film Monica White Ndounou, 2014-04-29 In Hollywood we hear it s all about the money It s a ready explanation for why so few black films get made no crossover appeal no promise of a big payoff But what

if the money itself is color coded What if the economics that governs film production is so skewed that no film by about or for people of color will ever look like a worthy investment unless it follows specific racial or gender patterns This Monica Ndounou shows us is precisely the case In a work as revealing about the culture of filmmaking as it is about the distorted economics of African American film Ndounou clearly traces the insidious connections between history content and cash in black films How does history come into it Hollywood s reliance on past performance as a measure of potential success virtually guarantees that historically underrepresented underfunded and undersold African American films devalue the future prospects of black films So the cycle continues as it has for nearly a century Behind the scenes the numbers are far from neutral Analyzing the onscreen narratives and off screen circumstances behind nearly two thousand films featuring African Americans in leading and supporting roles including such recent productions as Bamboozled Beloved and Tyler Perry s Diary of a Mad Black Woman Ndounou exposes the cultural and racial constraints that limit not just the production but also the expression and creative freedom of black films Her wide ranging analysis reaches into questions of literature language speech and dialect film images and narrative acting theater and film business practices production history and financing and organizational history By uncovering the ideology behind profit driven industry practices that reshape narratives by about and for people of color this provocative work brings to light existing limitations and possibilities for reworking stories and business practices in theater literature and film
